G-3 Operation Report

No. 61

From: 1800I, 24 October 1945.
To : 1800I, 25 October 1945.

Maps: No change.

1. Location of Troops:

See Location Statement No. 32.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear, visibility unlimited. Surface winds, easterly, 5-10 knots. Sea calm.

b. Central KYUSHU:

Clear with scattered high clouds, visibility, 8-12 miles. Surface winds, northerly, 12-16 knots. Sea, brisk.

c. Southern KYUSHU:

Clear and warm, visibility 11-14 miles. Surface winds, 2-4 knots. Sea calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. Advance Detachments of 25th Evacuation Hospital, 123d Station Hospital, and 5th Army Medical Lab departed SASEBO by road for FUKUOKA at 0830I. The Port Directors in NAGASAKI and FUKUOKA were placed under the CG 2d MarDiv and the CG FBC respectively for operational control effective 1412I.

b. 5th Marine Division completed displacement of the 27th Marines (Reinf) (less 1st and 2nd Bns) to KURUME. 127th Inf (Reinf) (less 1st Bn) patrolled vicinity KARATSU and the 13th Marines patrolled to the east of that area with no incident.

S E C R E T

S E C R E T

c. 2d Marine Division commenced loading the 2d Bn 2d Marines on LSTs for movement to KANOYA. The 2d and 8th Marines continued routine patrolling throughout the areas west, northwest and southeast of NAGASAKI to the coast. The 8th Marines dispatched a reconnaissance party for HITOYOSHI (1588-1002) at 0605I. The 10th Marines continued to patrol SHIMABARA PENINSULA.

d. 32d Infantry Division reported locating a military encampment at OTA with approximately 605 Japanese officers and men. It is estimated that demobilization of this group will be completed by 15 November. E Co 128th Inf closed BOFU at 1230I, and preparations for movement there of the remainder of the 2nd Bn continued. An advance party of the 3d Bn 126th Inf was sent to investigate the conditions at five Chinese labor camps, three at GOTOJI (386-173), one at KATSUKI (378-194) and one at NAOKATA (375-185). Delayed report received that the 74th Mal Contl Det closed YAMAGUCHI at 241800 and the 75th Mal Contl Det closed FUKUOKA at 231400I, at which times they reported to the CG 32nd Inf Div for operational control.

e. FUKUOKA Base Command assumed control of the Advance Detachment of the 25th Evac Hosp on its arrival in FUKUOKA at 1545I, and directed this unit to proceed at once to KOKURA.

f. KANOYA Occupation Force, no change.

4. Casualties:

G-3 Operations Report

From: 1800I, 25 October, 1945.
To : 1800I, 26 October, 1945.

No. 62.

Maps: No change.

1. Location of Troops:

See Location Statement No. 33.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and moderately cold. Surface winds, northerly, 2-3 knots. Sea, calm.

b. Central KYUSHU:

Warm with light overcast, visibility, 8-10 miles. Surface winds, northeasterly, 3-5 knots. Sea, calm.

c. Southern KYUSHU:

Warm and clear, visibility 8-15 miles. Surface winds, northeasterly, 3-6 knots.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. Rail serial of the 123d Station Hospital cleared SASEBO at 0815I, and arrived in FUKUOKA without incident at 1200I. Rail serial of the 25th Evacuation Hospital cleared SASEBO at 1215J; at end of period arrival had not been reported.

b. 5th Marine Division continued supervision of Japanese repatriation operations. Elements of the 27th Marines (Reinf) patrolled without incident southeast of KURUME in the vicinity of SETAKA. 13th Marines patrolled without incident northeast of HAMARI, in the vicinity of OCHI and KASHIMA. OITA Group patrolled west of BEPPU.

c. 2d Marine Division continued routine patrolling and preparations for displacement of 2d Marines to KANOYA area. 2d Bn, 2d Marines (Reinf) sailed for KANOYA at 1700I. 8th

SECRET

1167

Marines (Reinf) patrolled 10 miles northwest of KUMAMOTO without incident. 10th Marines patrolled the SHIMABARA Peninsula (E of NAGASAKI) and augmented present outpost at SHIMABARA, which now numbers 3 officers and 58 enlisted.

d. 32d Infantry Division delayed report indicates that the 323d Ordnance Co closed in FUKUOKA at 1500I, 25 October. At 2100I, 32d Cav Rcn Trp closed in MOJI. At 1315I, 2d Bn, 128th Infantry (Reinf) closed in BOFU. At 1400I, elements of 3d Bn, 126th Infantry (Reinf), relieved guard detachments of the 28th Marines (Reinf) over Chinese labor camps in the GOTOJI area (15 miles S of YAWATA). Elements of the 128th Infantry (Reinf) patrolled without incident to OMINE (15 miles W of YAMAGUCHI).

e. FUKUOKA Base Command continued assigned missions. At 2000I, the advance detail, 25th Evacuation Hospital, closed in FUKUOKA by rail. 327th QM Bn closed in FUKUOKA by road and rail at 1430I; CP opened at KASHII STATION at 1500I. 3745th Ord MAM Co closed in FUKUOKA by road and rail at 1500I; CP opened at KASHII STATION at 1530I. Co B, 12th Motor Transport Bn (Atchd, 2d Plat, Auto Repair Co, 12th Motor Transport Bn), passed to operational control of 32d Infantry Division at 0800I.

f. KANOYA Occupation Force continued routine patrolling and surveillance. An advance party from 2d Bn, 2d Marines (Reinf) arrived during the period and initiated preparations for arrival of that battalion in the KANOYA area.

No. 68

Maps: No change.

1. Location of Troops:

See Location Statement No. 34.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and moderately cold, visibility, unlimited. Surface winds, northwesterly, 5 knots. Sea, calm.

b. Central KYUSHU:

Warm with light overcast and haze. Surface winds, northerly, 3-5 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. As of 1037I, 25 October, the Rear Echelon, VAC, was detached to administrative and operational control of Hq, FMF, Pac. At 1012I, Japanese military authorities were granted permission to operate a low-power radio circuit between FUKUOKA and SASEBO on stipulated frequency, calls and schedules in order to facilitate rapid demobilization. At 1300I, the CP of the 128d Station Hospital opened in the Postal Savings Building, FUKUOKA; at 1930I, that of the 25th Evacuation Hospital opened in the Tameya Building, KOKURA.

b. 5th Marine Division Rear Echelon passed to operational and administrative control of Hq, FMF, Pac, as of 1033I, 25 October. 27th Mar (Reinf) patrolled without incident to MITSUSA (15 miles N of SAGA). 13th Mar patrolled without incident to vicinity of KASHIRA (25 miles E of SASEBO). By 1400I, 4,200 Japanese military repatriates had debarked under supervision of elements of the 13th Marines at HAGASHIRA. OITA Occupation Group dispatched patrols to TAKATA (20 miles N of BEPPU), KITSUKI (15 miles N of OITA) and HIDA (35 miles W of BEPPU); no incidents were reported.

1170

G-3 Operations Report

From: 1800I, 28 October 1945.
To : 1800I, 29 October 1945.

No. 55.

Maps: No change.

1. Location of Troops.

See Location Statement No. 36.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and cool, visibility, 10-15 miles. Surface winds, northerly, 4-7 knots. Sea, calm.

b. Central KYUSHU:

Warm, with broken overcast and rain at end of period, visibility, 5-7 miles. Surface winds, northeasterly, 3-5 knots.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. Elements of the 73d Field Hospital cleared SASEBO by road at 0830I for FUKUOKA. Advance detail of the 13th General Hospital cleared SASEBO by rail for FUKUOKA at 1200I, and arrived without incident at 1630I.

b. 5th Marine Division commenced further supervision and processing of 8,400 Japanese military repatriates who arrived at URAGASHIRA by LST from SAISHU at 1645I. 13th Marines patrolled without incident to KASHIMA, and 27th Marines (Reinf) in the area south and east of KURUME.

c. 2d Marine Division continued occupational missions and deployment into southern KYUSHU. At 0600I, motor elements of 1st Bn, 8th Marines (Reinf) cleared KUMAMOTO for KAGOSHIMA. As of the end of the period, 2d Bn, 2d Marines (Reinf), had completed unloading at KANOYA.

SECRET

d. 32d Infantry Division conducted routine patrolling and surveillance. 128th Infantry (Reinf) dispatched patrols to OGORI (6 miles SW of YAMAGUCHI), UTA and SUSA (32 miles N of SENZAKI). Delayed report indicates that CP of the 32d Cav Ren Trp opened at HAGI (10 miles N of SENZAKI) at 1300I, 27 October.

e. FUKUOKA Base Command continued base-development missions. At 1830I, CP of the 3540th Ord MAM Co opened in FUKUOKA at (51.1-61.1). The advance detail of the 120th QM Bakery Co arrived in FUKUOKA by rail at 1305I. At 1700I, the 565th QM RHd Co closed in FUKUOKA by road.

f. KANOYA Occupation Force continued preparation for relief.

4. Casualties:

None.

G-3 Operations Report

From: 1800I, 29 October 1945
To : 1800I, 30 October 1945

No. 66.

Maps: No change.

1. Location of Troops:

See Location Statement No. 37.

2. Weather and Visibility:

a. Northern KYUSHU:

Overcast with intermittent rain, visibility, 1-3 miles. Surface winds, northeasterly, 1-5 knots. Sea, calm.

b. Central KYUSHU:

Warm and clear, visibility, 8-10 miles. Surface winds, northerly, 3-5 knots.

c. Southern KYUSHU:

Warm with broken overcast. Surface winds, light and variable.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. As of 1021I, NavTechJap afloat in USS BLACKFORD reported to Com5thFlt for full administrative control. At 1526I, VAC assumed custody of OMURA Airfield as directed in Sixth Army dispatch 300928 of October.

b. 6th Marine Division continued occupational missions. Elements of the 27th Marines (Reinf) patrolled to NAKATSU (5 miles SE of SAGA), the area JOJIMA-KANGENJI (10 miles E of SAGA), and FURUYU (10 miles NW of SAGA). 13th Marines patrolled without incident to HAMASAKI and KASHIMA. At 0504I, 13th Marines had completed debarkation processing of repatriated Japanese military personnel at URAGASHIRA. OITA Occupation Group patrolled to SAEKI (21 miles SE of OITA) and HORE (26 miles NW of OITA). As of the end of the period, 2d Bn, 26th Marines, Fleet Marine Force, was disbanded in accordance with current directives.

1187

SECRET

SECRET

c. 2d Marine Division continued deployment into Southern KYUSHU. At 0818I, remaining rear elements of 1st Bn, 8th Marines (Reinf), cleared KUMAMOTO by road for KAGOSHIMA. At 1510I, control of KANOYA Occupation Force zone passed to 2d Bn, 2d Marines (Reinf). 10th Marines during the period established a detachment at UNZEN (on SHIMABARA Peninsula).

d. 32d Infantry Division conducted routine patrolling and surveillance. 128th Infantry (Reinf) dispatched a patrol to IWAKUNI airfield (40 miles E of YAMAGUCHI). 126th Infantry (Reinf) sent detachments for security and surveillance of dumps to the following places: NOGATA (21 miles NE of FUKUOKA); TSUIKI (17 miles SSW of KOKURA); and the area seven miles south of MOJI.

e. FUKUOKA Base Command continued base-development. At 2100I 1st and 3d Plats, 120th QM Bkry Co closed in FUKUOKA; at the same time, Co CP opened at KASHII STATION. Elements of the 13th General Hospital closed in FUKUOKA via road at 1630I; CP opened in the Postal Savings Building at that hour. As of the end of the period, the 3873d QM Gas Supply Co had closed in FUKUOKA.

f. KANOYA Occupation Force continued loading of 1st Bn, 127th Infantry (Reinf) in 4 LSTs. At 1510I, control of Force zone of responsibility passed to 2d Bn, 2d Marines, and KANOYA Occupation Force disbanded as of that hour. 1st Bn, 127th Infantry (Reinf) completed embarkation and prior to the end of the period sailed from KANOYA for SASEBO.

G-3 Operations Report

No.67

From: 1800I, 30 October 1945.
To : 1800I, 31 October 1945.

Maps: No change.

1. Location of Troops:

See Location Statement No.38.

2. Weather and Visibility:

a. Northern KYUSHU:

Cloudy and moderately cold with intermittent rains, visibility, 5-10 miles. Surface winds, northeasterly, 5-10 knots. Sea, calm.

b. Central KYUSHU:

Clear and warm, visibility, 8 miles. Surface winds, northeasterly, 8-12 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. 1st Bn, 127th Infantry arrived in SASEBO from KANOYA in four LSTs at 1500I and initiated preparations for disembarkation and entraining for FUKUOKA.

b. 6th Marine Division executed routine occupational missions. 27th Marines patrolled the area south and east of KURUME, and the 13th Marines sent patrols to TAKEO (15 miles E of SASEBO) and the area south of KASHIMA. 13th Marines continued processing of sixth group of Japanese military repatriates from KOREA, which arrived at URAGASHIRA in four LSTs. OITA Occupation Group prepared for relief by elements of the 32d Infantry Division, and patrolled without incident to NAKATSUGI (8 miles S of OITA).

c. 2d Marine Division conducted routine patrols in the NAGASAKI and KUMAMOTO areas, and throughout the SHIMABARA peninsula. Deployment into southern KYUSHU continued without incident.

SECRET

d. 32d Infantry Division continued deployment throughout zone of responsibility. 128th Infantry (Reinf) despatched two patrols to YaNaI (on the coast, E of BOFU), to KaNO (20 miles NE of BOFU), and to KaMAITaI (12 miles NW of YaMAGUCHI). 126th Infantry (Reinf) sent detachments to YUKUHaSI (15 miles S of KOKURa) and HaCHIYa (30 miles SSE of KOKURa). At 1830I, elements of the 712th Med San Co closed in FUKUOKa by road enroute to YaMaGUCHI. A rail serial comprising elements of the 126th Fa Bn and of Hq, Div Arty, cleared FUKUOKa by rail for OITa at 0755I.

e. FUKUOKa Base Command continued base-development missions. Rear elements of the 25th Evacuation Hospital cleared FUKUOKa by rail at 1100I and closed in KOKURa at 1515I. At 1400I, CP of 209th Ord Bn opened in new location at ZaSS foundry (53.1-61.1), and closed in old location at the same time. Garrison Boat Pool closed in FUKUOKa by road at 1400I, as did the 721st Med San Co at 1610I; Co Cp opened at that hour at (47.3-67.7).

4. Casualties:

None.

G-3 Operations Report

No.68

From: 1800I, 31 October 1945.
To : 1800I, 1 November 1945.

Maps: No change.

1. Location of Troops:

See Location Statement No.39.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and warm, visibility, unlimited. Surface winds, northerly, 5-7 knots. Sea calm.

b. Central KUYSHU:

Cool and clear, visibility, 12-15 miles. Surface winds, northwesterly, 6-8 knots. Sea calm.

3. Our Operations for the Period:

a. V amphibious Corps continued assigned missions in zone of responsibility. As of 30 October, 47th General Hospital on Sixth Army order passed from operational control of VAC to X Corps. At 2115I, 3d Plat, 4th Salvage Repair Co, was deleted from VAC troop-list. A rail serial composed of elements of the 712th and 721st Med San Cos cleared SASEBO for FUKUOKA at 0800I. At 1005I, the 101st QM Graves Registration Plat cleared SASEBO by road for FUKUOKA. 1st Bn, 127th Infantry, commenced unloading from LST's and prepared for movement by rail to FUKUOKA.

b. 5th Marine Division conducted routine occupational missions. 3d Bn, 28th Marines, relieved 3d Bn, 127th Infantry, and control of zone passed to the former unit at 1200I. 13th Marines patrolled the area northeast of FUKUOKA without incident, while elements of the CITA Occupation Group patrolled to SASEBO (20 miles SE of CITA). At the end of the period, the CITA group was in process of relief by 126th FA Bn (Reinf).

SECRET

1193

SECRET

c. 2d Marine Division delayed report indicates that rear elements of 1st Bn, 8th Marines, closed in KAGOSHIMA by road at 1530I, 30 October. Division conducted routine patrolling in vicinity of [illegible] and SHIMABARA. Otherwise, no change.

d. 32d Infantry Division delayed report indicates that rail serial of 126th F.A. Bn closed without incident in OITA at 1530I, 31 October; road elements of that battalion cleared FUKUOKA for OITA at 0730I. 128th Infantry (Reinf) patrolled without incident to [illegible]OHI (15 miles NW of YAMAGUCHI). At 0830I, the SD ZAKI detachment of Co D, 3d MP Bn, was relieved by 32d Cav Recn Trp, and cleared SD ZAKI for FUKUOKA by rail at 1430I.

e. FUKUOKA Base Command continued base-development missions. 24th and 25th Mil Surv Dets closed in FUKUOKA by road at 1730I, 31 October; CP's of both units opened at that time in the Postal Savings Building.

G-3 Operations Report

From: 1800I, 1 November, 1945.
To : 1800I, 2 November, 1945.

No. 32.

Maps: No change.

1. Location of Troops:

. See Location Statement No. 40.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and mild, visibility, unlimited. Surface winds, northeasterly, 8-10 knots. Sea, calm.

. b. Central KYUSHU:

Clear and cool, visibility, 13-15 miles. Surface winds, northerly, 10-15 knots. Sea, calm.

3. Our Operations for the Period.

a. V Amphibious Corps continued assigned missions in zone of responsibility. At 0800I, rail serial of the 75d Field Hospital cleared SASEBO for KUMAMOTO. At 0850I, 392d Ambulance Co completed debarkation and went into temporary billets ashore in SASEBO. 1st Bn, 127th Infantry, completed entraining in two rail serials and cleared SASEBO for FUKUOKA at 1600I.

b. 5th Marine Division continued occupational missions. At 1040I, 2d Bn, 28th Marines with attached reinforcing and regimental headquarters elements, cleared FUKUOKA by rail in three serials, and closed in ATTOURA without incident at 1535I. Elements of the 13th Marines patrolled east and south of KARATSU, and 27th Marines patrolled to the area 27 miles northeast of SAGA.

c. 3d Marine Division continued deployment into southern KYUSHU. 2d Bn, 2d Marines (Reinf), patrolled without incident from KAIOYA to ARIAKE WAN, and 20 miles northeast to SUEYOSHI. 3d Bn, 2d Marines, throughout the

SECRET

SECRET

period conducted loading operations for displacement via LST for KANOYA. Elements of the 8th Marines (Reinf) patrolled to the areas 12 miles northwest and 15 miles southwest of KUMAMOTO.

c. 32d Infantry Division conducted routine patrolling and surveillance. Elements of the 128th Infantry (Reinf) began destruction of Japanese aircraft at OZUKI airfield (3 miles NE of SHINOSUKI); patrolled to IWAKUNI (11 miles E of YAMAGUCHI), where two airfields with approximately 176 Japanese aircraft are presently under guard; and patrolled to YANAI (40 miles SE of YAMAGUCHI) and to the area 17-20 miles northeast of YAMAGUCHI. 2d Bn, 128th Infantry (Reinf), relieved 120th FA Bn at KOKURA as of 1200I. Relief of the OITA Occupation Group by elements of the division continued, and, at 2330I, 2d Plat, Co D, 3d MP Bn, closed in FUKUOKA by rail from SEIZAKI.

e. FUKUOKA Base Command continued base-development missions. At 2100I, 101st QM Graves Registration Plat closed in FUKUOKA by road, and were attached to 693d QM Bn as of that hour. As of 0800I, Co C, 5th Med Bn, arrived in FUKUOKA and passed from 32d Infantry Division to operational control of FUKUOKA Base Command. At 1100I, 1388th Engr (C) Bn passed from FUKUOKA Base Command to 3201st Engr Cons Brigade for operational control. 98th Veterinary Food Inspection Team closed in FUKUOKA by road from SASEBO at 1430I.

G-3 Operations Report

From: 1800I 4 November 1945,
To : 1800I 5 November 1945.

SECRET

No. 72

Maps: No change.

1. Location of Troops:

See Location Statement No. 43.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and cold, visibility, unlimited. Surface winds, northerly, 8-10 knots. Sea, calm.

b. Central KYUSHU:

Cool and clear, visibility, 12-15 miles. Surface winds, southwesterly, 5-7 knots.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. Elements of 13th General Hospital departed SASEBO by rail for KOKURA at 0845I. As of 31 October, 2d Separate Headquarters and Supply Company disbanded in accordance with FMF Pac dispatch 200207 of Oct. At 1600I, CG VAC returned from inspection of FUKUOKA area.

b. 5th Marine Division conducted routine patrolling in the vicinity of SAGA. Former OITA Occupation Group cleared OITA in two rail serials for SASEBO at 0800I.

c. 2d Marine Division units patrolled without incident the vicinity of NAGASAKI and the SHIMABARA Peninsula. At 1015I, 3d Bn and regimental headquarters, 2d Marines, arrived at KAWOYA by LST, and commenced unloading. At 1700I, 1st Bn, 10th Marines closed by road in NAGASAKI from ISAHAYA; CP opened in KAMIGO Barracks at 0900I and closed at old location at the same time.

SECRET

1214

SECRET

d. 32d Infantry Division continued normal occupational missions. 128th Infantry (Reinf) progressed with disposition of Japanese materiel at IWAKUNI Airfield, and patrolled without incident to UBE (19 miles SSW of YAMAGUCHI), ONODA (20 miles SW of YAMAGUCHI), and KIBE (14 miles WSW of YAMAGUCHI). At 0835I, 120th FA Bn cleared FUKUOKA by road and rail for OITA and closed without incident at 1400I. 3d Bn, AT Co and Cannon Co, 127th Infantry, closed by rail in FUKUOKA at 2230I, reverting to control of division as of that hour. Elements of the 126th Infantry (Reinf) patrolled the TOBATA-YAWATA-MAKAMATSU area and to KOISHIWARA (23 miles S of KOKURA).

c. FUKUOKA Base Command continued base-development missions. Delayed report indicates that CP of 122d Station Hospital now open in Mitsui Building, MOJI.

4. Casualties:

None.

G-3 Operations Report

From: 1800I, 5 November 1945,
To : 1800I, 6 November 1945.

No. 73

Maps: No change.

1. Location of Troops:

See Location Statement No. 44.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and cold, visibility, 15 miles. Surface winds, northerly, 3-5 knots. Sea, calm.

b. Central KYUSHU:

Cool and clear, visibility, 10-12 miles. Surface winds, westerly, 3-5 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. At 0630I, 11th General Dispensary cleared SASEBO by road for FUKUOKA. At 1150I, advance detail of 309th General Hospital cleared SASEBO for FUKUOKA by road. At 1030I, the CG, SIXTH Army landed at MAB, OMURA, and proceeded to NAGASAKI, arriving at 1230I. At 1515I, he cleared NAGASAKI by road for SASEBO.

b. 5th Marine Division reconnaissance and disposition by Co A, 27th Marines are proceeding without incident on FUKAE SHIMA (GOTO RETTO). At 1801I, Co A, 5th Tank Bn (Reinf)(former CITA Occupation Group) closed in SASEBO by rail. 1st Bn and elements of regimental headquarters, 28th Marines (Reinf), closed in SASEBO by rail from FUKUOKA at 1400I and reverted to division control.

c. 2d Marine Division conducted routine patrolling in the vicinity of KUMAMOTO, ISAHAYA and NAGASAKI. 2d Bn, 2d Marines, initiated displacement to MIYAKONOJO, while 1st Bn, 2d Marines, continues preparations for over-water displacement to MIYAZAKI. The CG, SIXTH Army was present in the division zone between 1230I and 1515I.

SECRET

1217

SECRET

d. 32d Infantry Division executed normal patrolling and surveillance south of KOKURA and OITA. Delayed reports indicate that on 2 November elements of the 128th Infantry (Reinf) reconnoitered without incident the following islands southeast of BOFU: SEN SHIMA, OTSU SHIMA, O SHIMA, KASATO SHIMA, and NO SHIMA. Road and rail serials of the 2d Bn, 127th Infantry closed in FUKUOKA from SASEBO at 1300I and reverted to division as of that hour.

e. FUKUOKA Base Command continued base-development missions. 3540th Ord MAM Co cleared FUKUOKA by road at 0800I, and closed in KOKURA without incident at 0955; Co CP is located in KOKURA Arsenal.

G-3 Operations Report

From: 1800I, 6 November 1945.
To : 1800I, 7 November 1945.

No. 74.

Maps: No change.

Enclosure: (A) Location map, major troop units, VAC.

1. Location of Troops:

See Location Statement No. 45 and Enclosure (A).

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and cold, visibility, unlimited. Surface winds, northwesterly, 8-10 knots. Sea, calm.

b. Central KYUSHU:

Cold and clear, visibility 12-15 miles. Surface winds, northerly, 5-8 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. The CG, SIXTH Army, arrived in SASEBO by road from NAGASAKI at 1810I, inspected elements of the 5th Marine Division during the morning of 7 November, and, at 1315I, cleared SASEBO by road for FUKUOKA. As of 7 November, the NAGASAKI Detachment, 8th Service Regiment, disbanded, and 1st Sep Hq and Sup Co (Atchd for operational and administrative control, 24th Marine Depot Co and 124th Port Co) passed to operational control of 2d Marine Division. 309th General Hospital cleared SASEBO by rail in two serials at 1200I and 1600I which arrived without incident at 1630I and 2005I, 7 November.

b. 5th Marine Division disposition parties were active in the SASEBO and KASHIMA areas. Co A, 27th Marines (Reinf) continues disposition and surveillance in GOTO RETTO. CP, 28th Marines (Reinf), opened in AINOURA barracks, SASEBO, at 0800I; at the same hour, CP, 1st Bn, 28th Marines (Reinf), opened in ONO barracks, SASEBO.

SECRET

SECRET

c. 2d Marine Division continued routine occupational missions. 8th Marines (Reinf) patrolled the area 20 miles southeast of KUMAMOTO, while at 1245I an advance detail of 3d Bn, 8th Marines (Reinf), cleared KUMAMOTO by road for HITOYOSHI (41 miles S of KUMAMOTO). (3d Bn, 2d Marines (Reinf) (rather than 2d Bn, as stated in G-3 Operations Report No. 73) is now enroute to MIYAKONOJO.

d. 32d Infantry Division conducted routine patrolling and surveillance. 128th Infantry (Reinf) patrolled to KINJO (18 miles NW of YAMAGUCHI) and KAMOKU (27 miles NW of YAMAGUCHI). 126th Infantry sent patrols without incident to OKUMA (20 miles S of YAWATA), NAKATSU (25 miles SE of KOKURA) and HIDA (40 miles S of KOKURA). At 1500I, Ser Co, 127th Infantry, closed in FUKUOKA and reverted to control of division. CG, SIXTH Army arrived FUKUOKA at 1735I.

e. FUKUOKA Base Command delayed report indicates that the 11th General Dispensary closed in FUKUOKA by rail at 1100I, 6 November. Rear elements of 13th General Hospital cleared FUKUOKA by rail for KOKURA at 1100I, and closed in KOKURA without incident at 1315I. CP opened at 1400I in Tamya Building.

No. 75

Maps: No change.

1. Location of Troops:

See Location Statement No. 46.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and cold, visibility, 10-20 miles. Surface winds, northerly, 2-4 knots. Sea, calm.

b. Central KYUSHU:

Clear and cold, visibility, 10-12 miles. Surface winds, northerly, 3-5 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility.

b. 5th Marine Division continued routine occupational missions. 1st Bn, 28th Marines (less Co B, which displaced to SASEBO Fortress Arty Hq), displaced from CNO barracks to AINOURA barracks, SASEBO. 13th Marines patrolled without incident to FURUYU and HAMASAKI (35 and 20 miles NE of SASEBO, respectively).

c. 2d Marine Division at 0930I dispatched a patrol from 6th Marines (Reinf) in USS LCT 954 to reconnoiter KAKINOURA SHIMA (15 miles SW of SASEBO) and investigate reported disturbances among Chinese on that island. At 1801I, CP's of 2d Marines (Reinf) and of 3d Bn, 2d Marines (Reinf), opened in MIYAKONOJO. At 1045I, a Japanese ammunition dump in KANOYA, adjacent to billets of 2d Bn, 2d Marines

SECRET

SECRET

(Reinf), exploded from unknown causes; no American casualties were sustained, and, as of 1646I, fires were under control, and explosions had ceased. Full report and investigation will follow. On 8 November, 4th Bn, 10th Marines, established an outpost of platoon strength in KAZUSA (20 miles SE of NAGASAKI, across TACHIBANA WAN); CP is located in KAZUSA Hotel.

d. 32d Infantry Division delayed report indicates that rear elements of Co B, 114th Engr Bn, closed in FUKUOKA by rail at 1200I, 7 November. 128th Infantry (Reinf) despatched Co E to IWAKUNI airfield to assist in disposition of Japanese materiel, and elements of the regiment patrolled without incident to YASAKA-MURI (19 miles NE of YAMAGUCHI), OGORI (9 miles SW of YAMAGUCHI), and the islands 20 miles southeast of BOFU. 128th Infantry (Reinf) despatched reconnaissance-patrols to NAGASU (36 miles SE of MOJI), TAKATA (37 miles SE of MOJI), and YOKKAICHI (37 miles SE of MOJI). Elements of Division Arty patrolled to ..ORI (25 miles W of OITA).

e. FUKUOKA Base Command continued base-development missions. At 1100I the advance detail of 65?d Sig Cons Bn closed in FUKUOKA by road. At 12..0I, elements of the Garrison Boat Pool arrived in FUKUOKA by rail.

G-3 Operations Report

From: 1800I, 8 November, 1945.
To : 1800I, 9 November, 1945.

No. 76.

Maps: No change.

1. Location of Troops:

See Location Statement No. 47.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and cold, visibility, 10-12 miles. Surface winds, northerly, 6-8 knots. Sea, calm.

b. Central KYUSHU:

Cool, and clear, visibility, 12-15 miles. Surface winds, northerly 3-5 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. As of 7 November, 1st Separate Radio Intelligence Platoon disbanded in accordance with FMF Pac dispatch 030041 of November. As of same date, 2d Plat, 22d Special Services Co, was detached from operational control of VAC by SIXTH Army. 1332d Engineer General Service Regiment was deleted from VAC troop list by SIXTH Army dispatch 161955I of October.

b. 5th Marine Division patrols destroyed defensive installations on the following islands 7-12 miles west of SASEBO: KURO SHIMA, TAKA SHIMA, TOKOI SHIMA, NO SHIMA and A SHIMA. 13th Marines destroyed military materiel at SHIOTA (16 miles SW of SAGA).

c. 2d Marine Division reports relative to explosion at KANOYA on 8 November indicate that a Japanese flare-stowage area was accidentally ignited, with a resultant fire and series of explosions which lasted for several hours; several houses were burned in a small forest fire which started as a result. 6th Marines patrol landed on KAKINOURA-SHIMA (15 miles SW of SASEBO) at 1549I, 8 November, and reports

SECRET

that the Chinese situation is well in hand. Elements of 3d Bn, 8th Marines (Reinf), cleared KUMAMOTO by road for HITOYOSHI (38 miles S of KUMAMOTO) and arrived without incident at 1215I. Patrolling continued in the NAGASAKI and ISAHAYA areas.

d. 32d Infantry Division conducted routine occupational operations. 128th Infantry (Reinf) procurement and disposition teams were active within a 30-mile radius of YAMAGUCHI. Division Artillery at OITA dispatched a patrol to SAEKI (27 miles SE of OITA) without reported incident.

e. FUKUOKA Base Command carried out base development missions. 553d Sig Cons Co closed in FUKUOKA by road at 1500I; CP opened as of that time at KASHII STATION.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and cold, visibility, 10-12 miles. Surface winds, northeasterly, 3-5 knots. Sea, calm.

b. Central KYUSHU:

Clear and warm, visibility, 12-15 miles. Surface winds, northwesterly, 3-5 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility and observed the 170th birthday of the Marine Corps this date.

b. 5th Marine Division reports indicate that Co A, 27th Marines (Reinf), has completed missions on GOTO RETTO, and is preparing to return on 11 November. Elements of the 27th Marines (Reinf) patrolled without incident to HARA-MACHI (15 miles S of KURUME) and HAINUZUKA (7 miles S of KURUME).

c. 2d Marine Division, no change.

d. 32d Infantry Division procurement and disposition teams initiated operations within a 20-mile radius of BOFU, and proceeded to SUSA (55 miles NNE of YAMAGUCHI). A demobilization-verification patrol from the 128th Infantry (Reinf) found all troops demobilized at YAMAI (30 miles ESE of BOFU).

e. FUKUOKA Base Command continued base-development missions. 3873d QM Gas Supply Co displaced from Zass Foundry to KASHII Station, where Co CP opened at 1801I.

c. Southern KYUSHU:

Warm and hazy, visibility, 10 miles. Surface winds, negligible. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. VAC Chief of Staff inspected garrisons at KANOYA, MIYAKONOJO and KAGOSHIMA, and made an aerial reconnaissance of the KUSHIKINO-IZAKU-TOJIMBARA area, as well as of MIYAZAKI.

b. 5th Marine Division detachment (Co A, 27th Marines, (Reinf)) returned from GOTO RETTO at 1245I. Elements of the 27th Marines completed disposition on the following islands: (all 7-12 miles WNW of SASEBO): ASA SHIMA, TOKOISHIMA, KUJUKU SHIMA, and NO SHIMA.

c. 2d Marine Division delayed report indicates that 1st Bn, 2d Marines (Reinf), arrived by LST at KANOYA at 1030, 10 November. Elements of the 2d Marines (Reinf) patrolled without incident to HOSHIKURA, NISHINOMURA, and KUKISHIMA (18 miles SE of MIYAKONOJO). 6th Marines' patrol cleared KAKINOURA SHIMA for MATSU-SHIMA (18 miles SE of SASEBO) at 0850I.

SECRET

d. 32d Infantry Division continued routine occupational missions. Disposition teams of the 128th Infantry (Reinf) initiated operations at SASANAMI MURA (12 miles N of YAMAGUCHI). 127th Infantry (Reinf) began destruction of Japanese tanks and armored materiel, while elements of the 126th Infantry (Reinf) patrolled without incident in the area 30 miles south and east of KOKURA, reaching MORIZANA (32 miles SE of KOKURA).

e. FUKUOKA Base Command, no change.

4. Casualties:

None.

G-3 Operations Report

No. 79.

From: 1800I, 11 November 1945.
To : 1800I, 12 November 1945.

Maps: No change.

1. Location Troops:

See Location Statement No. 50.

2. Weather and Visibility:

a. Northern KYUSHU:

Clear and slightly warmer, visibility, 8-10 miles. Surface winds, northwesterly, 4-6 knots. Sea, calm.

b. Central KYUSHU:

Warm and overcast, visibility, 8 miles. Surface winds, northerly, 3-5 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility.

b. 5th Marine Division despatched 5th Rcn Co to HIRADO SHIMA to execute disposition missions; Co arrived without incident at 1200I. At 2012I, Wpns Co, 28th Marines (Reinf), closed by rail in SASEBO from FUKUOKA. 1st Bn, 27th Marines (Reinf), completed disposition missions on KURO and TAKA SHIMA (8 miles ENE of SASEBO), and a disposition patrol from the 13th Marines went to OGI (5 miles NW of SAGA).

c. 2d Marine Division delayed report indicates that 3d Bn, 8th Marines (Reinf), closed in HITOYOSHI by road at 1215I, 9 November. 1st Bn, 2d Marines (Reinf), completed unloading at KANOYA and entrained for MIYAZAKI at 0300I; battalion advance CP is established at MIYAZAKI. 3d Bn, 2d Marines (Reinf), carried out patrols without incident in a 20-mile radius around MIYAKONOJO. At 1345I, 6th Marines' patrol returned from MATSUSHIMA to NAGASAKI by LCT. Elements of the 8th Marines (Reinf) patrolled to YOSHIHARA (35 miles NE of KUMAMOTO).

S E C R E T

1244

S E C R E T

d. 32d Infantry Division continued routine occupational missions. 126th Infantry (Reinf) despatched a disposition patrol to ASHIYA airfield, while the 127th Infantry (Reinf) sent reconnaissance patrols through the area 25 miles around FUKUOKA. Division Artillery disposition patrols operated in SAGANASEKI (15 miles E of OITA), SAEKI (27 miles SE of OITA) and HIJI (11 miles W of OITA). A detachment of the 712 Med San Co has been despatched to SENZAKI.

e. FUKUOKA Base Command continued base-development missions. Elements of the 284th Ord Hvy Maint Co closed by rail in FUKUOKA at 1630I, 11 November; Cp opened at ZASS foundry at 1700I.

4. Casualties:

None.

G-3 Operations Report

No.81.

From: 1800I, 13 November 1945.
To : 1800I, 14 November 1945.

Maps: No change.

1. Location of Troops:

See Location Statement No.52.

2. Weather and Visibility:

a. Northern KYUSHU:

Cold and rainy, visibility, 2-4 miles. Surface winds, northerly, 2-4 knots. Sea, calm.

b. Central KYUSHU:

Cold, with intermittent heavy rain, visibility, 2-4 miles. Surface winds, southwesterly, 8-12 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility. As of 12 November, on SIXTH Army order, the 122d Station Hospital passed to 32d Infantry Division for administration and supply; operational control remains with FBC.

b. 5th Marine Division continued patrolling, surveillance and disposition. 5th Rcn Co destroyed weapons and communication gear on HIRADO SHIMA (17 miles WNW of SASEBO), while 1st Bn, 27th Marines, completed disposition missions on TAKA SHIMA (7 miles W of SASEBO). 13th Marines patrolled the area 20 miles northeast of SASEBO.

c. 2d Marine Division continued routine occupational missions. Elements of the 2d Marines (Reinf) patrolled to KOKUBU (25 miles NNW of KANOYA). 6th Marines (Reinf) despatched an overwater patrol by two LCT's to investigate the location and present use of certain radio equipment at MIE (15 miles NW of NAGASAKI). 8th Marines (Reinf) patrolled the area 27 miles northeast of KUMAMOTO.

S E C R E T

d. 32d Infantry Division continued procurement and disposition (128th Infantry (Reinf)) at OZUKI airfield (11 miles NE of SHIMONOSEKI), IWAKUNI airfield (40 miles E of YAMAGUCHI), and in the immediate vicinity of SHIMONOSEKI. Elements of the 127th Infantry (Reinf) patrolled 20 miles east of FUKUOKA. The 126th Infantry conducted disposition at the following places: ASHIYA airfield, KOKURA harbor, MOJI, GRIO, YAWATA and TOBATA. Elements of Division Artillery at OITA supervised disposition at HIU (12 miles NE of OITA).

e. FUKUOKA Base Command continued base-development missions. At 1130I, elements of the 116th NC Bn cleared FUKUOKA by rail for SASEBO.

G-3 Operations Report

From: 1800I, 14 November 1945,
To : 1800I, 15 November 1945.

No. 82

Maps: No change.

1. Location of Troops:

See Location Statement No. 53.

2. Weather and Visibility:

a. Northern KYUSHU:

Cold with intermittent rain, visibility, 2-4 miles. Surface winds, northerly, 3-5 knots. Sea, calm.

b. Central KYUSHU:

Overcast and cool, with intermittent rains, visibility, 6-8 miles. Surface winds, northwesterly, 8-12 knots. Sea, calm.

3. Our Operations for the Period:

a. V Amphibious Corps continued assigned missions in zone of responsibility.

b. 5th Marine Division at 1500I executed surprise searches of shrines, temples and schools in vicinity of SASEBO; swords, rifles, rangefinders, and various records and documents were seized. 1st Bn, 27th Marines, completed disposition on KUROSHIMA (10 miles WSW of SASEBO), and a disposition patrol of the 27th Marines (Reinf) operated in the vicinity of YOSHII (14 miles E of KURUME). Detachment from the 116th MC Bn closed by rail in SASEBO and reverted to division control at 2000I. Co C (less 1 Plat), 3d MP Bn, closed in SASEBO by rail from FUKUOKA and passed to division operational control at 1400I. 13th Marines destroyed a Japanese SS at MIYAMOURA (5 miles SE of SASEBO). Patrolling and disposition continued throughout entire zone.

c. 2d Marine Division conducted occupational missions. Co A, 2d Engr Bn arrived and is temporarily billeted at SHIBUSHI (18 miles S of MIYAKONOJO). A disposition detachment from the 8th Marines (Reinf) continued operations at MISUMI (20 miles SW of KUMAMOTO), and elements of the 8th Marines patrolled without incident 28 miles northeast of KUMAMOTO.

SECRET

d. 32d Infantry Division continued patrolling, surveillance and disposition. A patrol from the 128th Infantry (Reinf) checked demobilization between BOFU and MUROZUMI (27 miles SE of BOFU), and other elements of the regiment completed disposition at UBE (25 miles SW of YAMAGUCHI). A Division Artillery patrol continued disposition at SAEKI. At 0800I, Co D, 3d MP Bn, cleared FUKUOKA by rail for SASEBO.

e. FUKUOKA Base Command continued base-development missions. 274th Sig Hvy Cons Co closed in FUKUOKA by rail from KURE at 0330I; CP opened as of that hour in ZASS foundry, and Co passed to FBC for operational control.

(I) Appendix 9 to Annex EASY (Periodic Reports).

1. In compliance with reference (a), this report is herewith submitted and is intended to present an overall synopsis of the major events and facts pertaining to the functioning of this Section in preparing for and in executing the Occupation of JAPAN.

2. To support the general narrative account contained in this report, are compiled logistical and administrative statistics as shown in Enclosures (A) through (I) inclusive.

3. G-4 REPORT (PLANNING AND PREPARATORY PHASE).

a. General.

(1) Upon receipt of the Warning Order assigning this Corps a mission for the assault landing on Southern KYUSHU, planning for the logistical support of this Corps was immediately initiated by the 4th Section. The 4th Section supervised and coordinated the planning of the related Special Staff Sections, screened all equipment and supplies to be embarked, and by conferences with representatives of the Commanding General, SIXTH Army, including one (1) at Army headquarters at LUZON in June, insured the general coordination of all supply activities. Constant liaison was maintained with Army Forces, MID-PACIFIC, to whom had been delegated the responsibility of furnishing the initial supplies to this Corps, and

CONFIDENTIAL

for mounting out all Army Augmentation units who were located in the HAWAIIAN Area. Information on 4th Section matte was included in the weekly newsletters exchanged between thi Headquarters and the SIXTH Army. Marine liaison officers se ing with the 4th Section, Headquarters, SIXTH Army, were of material assistance in coordinating and assisting in the supp planning of the occupation operation. All logistic planning, including resupply, was closely coordinated with the Service Command, Fleet Marine Force, Pacific and its operating agencies serving the Marine organizations involved. Throughout the planning phase the services and cooperation of the Service Command, particularly resupply, was uniformly excellent.

(2) Upon receipt of the Warning Order for the occupational landing on Northern KYUSHU, the 4th Section immediately began revision of previous logistical planning. Additional conferences were held with SIXTH Army and MID-PAC and the system of newsletters was continued. The chief change was a decrease in the amount of shipping to be made available to units of this Corps mounting from the HAWAIIAN Area. This situation was alleviated somewhat by a decrease in the amount of ammunition to be carried but still resulted in a reduction in the amount of supplies and equipment, particularly motor transport, that could be mounted out by the 5th Marine Division and Corps Troops elements in the HAWAIIAN Area. Plans were formulated through Fleet Marine Force, Pacific to set up turnaround shipping to lift the remainder of these units to the target as early as possible. Final assignment of shipping in the case of the 2nd Marine Division and Corps Troops in the MARIANAS Area was sufficient to mount these organizations in their entirety except for some non-essential items of the 43rd Naval Construction Battalion attached to the 2nd Marine Division The responsibility for furnishing initial supplies and mounting out of Army Augmentation units assigned this Corps and located in the PHILIPPINE and HAWAIIAN Area was assumed by the SIXTH Army and Army Forces, MID-PACIFIC, respectively. The Transport Quartermaster Section of this Headquarters furnished a representative to assist in coordinating and supervising the mounting out of the Army units in these areas. With the substitution of the 32nd Infantry Division for the 3rd Marine Division, the SIXTH Army assumed the responsibility of arranging for its initial supplies and mounting out from the PHILIPPINE Area. Conferences pertaining to logistics for this unit

CONFIDENTIAL

were held by representatives of this Headquarters with the SIXTH Army at LUZON and with staff representatives of the 32nd Infantry Division at SAIPAN while enroute to the target.

(3) The command chain during the planning phase was from Army Forces, PACIFIC to SIXTH Army to V Amphibious Corps to Divisions and Corps Troops.

(4) The logistical chain of command during this phase was as follows:

(a) Marine Corps units - from Army Forces, Western PACIFIC to SIXTH Army to Fleet Marine Force, PACIFIC to V Amphibious Corps, Corps Troops and Marine Divisions.

(b) Army Augmentation units mounting from the HAWAIIAN Area - from Army Forces, Western PACIFIC to Army Forces, MID-PACIFIC to units concerned.

(c) Army Augmentation units mounting from the PHILIPPINE Area - from Army Forces, Western PACIFIC to SIXTH and/or EIGHTH Armies, to units concerned.

4. In accordance with references (b) and (c), reference (d) was issued, which set forth the overall supply and resupply administrative plans and directives.

a. Supplies and Equipment embarked.

2' Emergency Type 10 D/S

3' Supplementary Rations 20 D/S

4' See Enclosure (B) Quartermaster Report for further breakdown of ration types and special components of ration and supplements.

b. Water.

1' In cans, drums or other organization equipment. 2 gal/man/day for five (5) days.

2. Class III 15 D/S

a. See Enclosure (B) Quartermaster Report for further breakdown of fuel and lube requirements.

3. Class II & IV - Ordnance 30 D/S

4. Class II & IV - Engineer

a. See Engineer Report of Operations.

5. Class II & IV - Signal.

a. Marine Corps units 30 D/S

1' Plus 15% of initial allowances of wire and dry batteries.

b. U.S. Army units.

1' T/E equipment plus supplies authorized in ASF Catalog Sig 4-1 and components of sets of T/E equipment.

6. Class V.

a. Combat units 3 U/F (AFPAC)

CONFIDENTIAL

b. Non-divisional Service units 1 U/F(A

c. Gas.

1' No gas or tear gas was carri

(b) Winter Clothing.

1. See Enclosure (C) to Appendix 2 to Annex EASY, Enclosure (B) Quartermaster Report.

(c) Voyage Rations.

1. The commanders of troops embarked on the various vessels were held responsible for the insuring that sufficient voyage rations were available.

(d) Military Government Supplies.

1. See Enclosure (E) to Appendix 2 to Annex EASY, Enclosure (B) Quartermaster Report.

(2) Equipment.

(a) Organizational.

1. Chemical Warfare.

a. No protective clothing, either individual or organizational, was taken to the objective area.

b. Gas masks, protective ointment and eyeshields, plus 30 D/S maintenance items.

2. Water purification units and supplies.

a. All drive points, portable water purification units, and temporary storage tanks were mounted for the operation.

CONFIDENTIAL

b. Water purification supplies-SOP

3. Well rigs, saw mills and rock crushers.

a. See Engineer Report of Operations Occupation of JAPAN.

4. Vehicles and weapons were carefully protected against immersion in salt water. After landing, waterproofing materials were removed.

5. Winterization:

a. Vehicles.

1' See Enclosure (G) Motor Transport Report.

b. Weapons.

1' See Enclosure (D) Ordnance Report.

6. All organic ambulances were embarked.

7. All light transportation and a minimum of 60% of heavy transportation was mounted for this operation.

8. All vehicles not lifted in the initial echelons were brought forward in turnaround or rear echelon shipping.

(3) Palletization.

(a) Class I, II, III & IV supplies not over ten (10) percent of overall total by weight, were palletized. All palletized Type "B" and "10-in-1" rations and Medical supplies were covered with waterproofing paper.

CONFIDENTIAL

(b) Class V.

1. Artillery Ammunition.

a. Was prescribed by division or separate organizational commanders.

b. Supply.

(1) Method of occupation supply.

(a) Ship to Shore.

1. See Enclosure (B) Quartermaster Report, and Enclosure (A) Transport Quartermaster Report.

(b) Initially divisions and separate units were responsible for their own supply from dumps established in vicinity of the beaches or docks.

(c) Instructions for development of local resources, storage, and distributing points of water were set forth in the Engineer Administrative Plan (Annex GEORGE to reference (d)). See Engineer Report of Operations, Occupation of JAPAN.

(d) Air Delivery.

1. A plan for Air Delivery was prescribed in Annex HOW to reference (d).

(e) Resupply - All classes.

1. See Enclosure (B) Quartermaster Report.

(2) Supplies to be landed with troops.

(a) Rations.

1. A minimum of one (1) emergency ration was carried by each individual.

CONFIDENTIAL

(b) Ammunition, landing, 1 U/F of all types.

(c) Water.

1. All medical personnel carried two filled canteens.

(d) Medical Supplies.

1. Adequate amounts of supplies were landed with organizational medical units.

(3) Dumps.

(a) Initial supply levels were maintained in division and separate unit dumps were prescribed by organizations concerned.

(b) Permanent storage areas were prescribed by Corps at the objective.

c. Evacuation.

(1) Casualties.

(a) Personnel.

1. See Enclosure (C) Medical Report.

(b) Civilian casualties were not evacuated.

(2) Burial.

(a) Instructions.

1. See Enclosure (C) Medical Report.

(b) Cemeteries.

1. Were prescribed after arrival at the objective. An armed forces cemetery was established in each of the three (3) main centers of occupation - NAGASAKI, SASEBO and FUKUOKA.

CONFIDENTIAL

(3) Salvage.

(a) Salvage of allied equipment was carried out in accordance with existing Army and Marine Corps SOPs.

(4) Surrendered materiels.

(a) See Enclosure (E) Disposition of Surrendered Materiel and Equipment Report.

d. Ordnance Plan.

(1) See Enclosure (D) Ordnance Report.

e. Engineer Plan.

(1) See Engineer Report of Operations, Occupation of JAPAN.

f. Transport.

(1) See Enclosure (A) Transport Quartermaster Report.

g. Personnel.

(1) For Administrative matters, see G-1 Report of Operations, Occupation of JAPAN.

(2) Shelter.

(a) Assignment of Corps and Division areas were made by Corps Commander. See Annex QUEEN to reference (d).

(b) Housing.

1. For limitations on construction, see Engineer Report of Operations, Occupation of JAPAN.

2. Camp Equipment.

a. See Enclosure (D) to Appendix 2 to Annex EASY, Enclosure (B) Quartermaster Report.

CONFIDENTIAL

(3) Reports.

(a) G-4 Periodic Reports were covered i Annex PETER to reference (d). (See Enclosure (I) Enclosure (I) will accompany only the original co of this report going to Headquarters Marine Corps.

h. Miscellaneous.

(1) Shore Parties.

(a) See Enclosure (H) Shore Brigade Report.

(2) Uniforms.

(a) Utility clothing for embarkation and debarkation was prescribed and worn.

(3) Baggage.

(a) Officers.

1. Field officers were authorized one (1) trunk, or footlocker; one (1) clothing roll or one (1) bag, clothing; and one (1) bedding roll.

2. All other officers; one (1) clothing roll, and one (1) bag, clothing; and one (1) bedding roll.

(b) Enlisted.

1. 1st paygrade; same as company grade officers.

2. All other enlisted personnel authorized one (1) bag, clothing.

(4) Sanitation.

(a) See Enclosure (C) Medical Report.

CONFIDENTIAL

(5) Military Government.

(a) See Military Government Report of Operations, Occupation of JAPAN.

(6) Conservation of Supplies.

(a) Instructions for conservation of supplies were carried out as set forth in reference (d).

(7) Clothing and Food for Repatriates.

(a) See Annex NAN to reference (d).

(8) Unloading Priority.

(a) Priorities were set up in Annex ABLE to reference (d) and were adhered to as closely as possible.

(9) Miscellaneous administrative matters.

(a) All units of this Corps left sufficient personnel in rear echelons to properly protect, maintain and embark such organizational equipment as not sent with assault echelon, consistant with requirements that maximum effective strength would be available at the objective.

5. G-4 REPORT (OPERATIONAL PHASE).

a. General.

(1) The plans and directives as set forth in paragraph 4. above (Planning Preparatory Phase), were executed in a very satisfactory manner. The G-4 Section had as its operational function the responsibility of the logistical support of this Corps. It maintained close supervision over the operations of the various related Special Staff Sections at all times during the occupational operation. It coordinated the unloading, transporting and storing of all supplies for units of this Corps. Assisting in this task were the following organizations and provisional groups: Shore Brigade, 8th Service Regiment, CUB 18, 7th Naval Construction Regiment, Provisional Medical Group, Provisional Motor Transport Group, Provisional Combat Engineer Group.

CONFIDENTIAL

(2) Representatives of this Section accompanied the group making the advance reconnaissance of the area to be occupied by elements of this Corps. These officers located and appraised all routes of communication, all warehousing and billeting spaces, and Japanese supplies for the use of the occupational forces. From the information supplied by these officers, this Section was able to make tentative allocations of the various warehouses, billeting spaces and supply installations to the organizations concerned prior to the initial landing of troops.

b. The main difficulties encountered in the occupational operation were as follows:

(1) The failure of MID-PAC agencies, charged with the responsibility of furnishing Class I supplies for mounting out elements of this Corps, to supply balanced "B" ration components as this Headquarters had requested. The rations furnished also lacked variety in meat components.

(2) The failure of resupply ships carrying fresh provisions to arrive on schedule and to arrive with cargoes as previously planned.

(3) The failure of service agencies, who were charged with the responsibility of mounting out Army Augmentation units, to comply with administratives orders in mounting out the aforementioned units with the prescribed level of rations and water, thereby creating a drain on the stock levels set up by this Corps.

(4) The lack of suitable warehouses, cold storage, and open storage facilities and the lack of good routes of communication in the SASEBO Area created a congested condition in the dock areas, thereby hampering the unloading and distribution of vitally needed equipment and supplies. This situation was further complicated by reason of the Port of FUKUOKA being closed to our shipping due to mines. By close supervision and timely coordination of the various supply activities, the aforementioned problems were solved without retarding the progress of the occupational operation.

c. Ship to Shore Movement.

(1) The unloading of cargo of units of this

CONFIDENTIAL

Corps was facilitated by the presence of docks and cranes. The bulk of the cargo unloaded was handled in this manner, however, a few ships were required to discharge cargo in midstream into small boats which were landed over ramps at the aircraft factory and Naval Air Station Areas.

(2) The discharging of cargo was coordinated by this Section and the Transport Quartermaster Section to insure the proper routing and storing of all supplies and equipment.

(3) Transron 22 was given priority in unloading so that it could be used as turnaround shipping to lift the 32nd Army Division from the PHILIPPINES.

d. Adequacy of Supplies and Equipment.

(1) In general, there were sufficient supplies and equipment to enable this Corps to efficiently perform its mission as an occupational force. However, Army units attached to V Amphibious Corps were late in receiving adequate issue of Wet and Cold Weather Clothing and tent stoves. This was due to their being brought forward in resupply shipping. Marine and Navy units mounted out with some stoves and all clothing being carried by organizations themselves. Remaining stoves required for Marine and Naval units arrived in early resupply shipping and distribution was effected by time cold weather set in.

(2) Initially there was a definite shortage of DDT and other disinfectants. They were needed in larger quantities than those brought ashore by the occupation forces due to extremely unsanitary conditions of the Japanese buildings to be used as living quarters. All billets required a thorough cleaning and disinfecting prior to being occupied by our forces.

(3) Immediately upon landing and for a period thereafter, there was a shortage of motor transport. This situation was caused by one (1) division of this Corps leaving in the rear echelon one-half (½) of the Division Motor Transport Battalion. This was caused by lack of shipping space. The situation never became critical however, as the Corps Provisional Motor Transport Group proved capable of meeting all necessary requirements. The availability and efficiency of motor transport in this Corps has been very satisfactory from the standpoint of complete utilization of vehicles and service facilities.

CONFIDENTIAL

e. Evacuation.

(1) See Enclosure (C) (Medical Report).

f. Transportation.

(1) See Enclosure (G) (Motor Transport Report).

g. Surrendered Supplies and Materials.

(1) Two (2) additional related Special Staff Sections, the Procurement Section and Disposition Section, were organized to deal with the problems of procuring Japanese supplies and equipment for the operational use of the occupational forces and for disposing of surrendered Japanese war supplies and materials. The Japanese liaison agencies were cooperative and very helpful in accomplishing these tasks.

(2) Certain Japanese Naval equipment and materials were evacuated from the SASEBO Area by NAVTECHJAP. These materials consisted chiefly of noteworthy ordnance and signal items. These items were sent to INDIANHEAD, MARYLAND for intelligence studies. For further details, see Annex CHARLIE, G-2 Report to V Amphibious Corps Operations Report, Occupation of JAPAN.

h. Activities.

(1) Operational Supply Plan from 22 September to 24 October, 1945.

(a) For the initial phase of the occupation, the main supply point was SASEBO, JAPAN and the sub-supply point was NAGASAKI. The greater bulk of unloading, of both supplies and troops, occured at SASEBO. This included the unloading and distribution of the initial resupply.

(2) Operational Supply Plan from 24 October to 25 November, 1945.

(a) During this period, the main supply point remained at SASEBO. The FUKUOKA Base Command was formed the 24th of October. This organization consisted of Command and Staff which was formed from

CONFIDENTIAL

the 5th Marine Division and Corps Troops. This organization assumed all logistical responsibility for the FUKUOKA Area and made preparations for the occupation of that area by the 32nd Infantry Division. NAGASAKI continued as a sub-supply point and functioned for the logistical support of the 2nd Marine Division zone of responsibility.

(3) Operational Supply Plan from 25 November, 1945.

(a) NAGASAKI continued to function as a sub-supply point. SASEBO remains the main supply point. The FUKUOKA Base Command was disbanded on 25 November and the 32nd Infantry Division assumed all logistical responsibility of the FUKUOKA Area. All Army service elements, including the 5201st Engineer Brigade, in the FUKUOKA Area operated under the 32nd Infantry Division during this period. The remainder of the Army service units landed at SASEBO and moved into the FUKUOKA Area by rail and road. The Port of FUKUOKA (HAKATA) will be opened to LST's and smaller craft on or about 6 December, 1945. From that date on supplies and equipment will be moved from SASEBO into the FUKUOKA Area by water as well as rail and truck convoy. Included in present plans is the taking over by "ASCOM-O" on or about 15 December, 1945, the logistical support of the island of KYUSHU. Their base supply point will be FUKUOKA with sub bases at SASEBO and NAGASAKI. The sub base at NAGASAKI will continue to function until such time as it is cleared of Army supplies and material.

(4) It is considered that the Corps was able to meet satisfactorily and successfully all logistical problems arising in the operational phase of the occupation.

6. G-4 OPERATIONS RECOMMENDATIONS.

These recommendations are submitted as being desirable for the successful functioning of a Corps when participating in an operation under conditions comparable to the Occupation of JAPAN.

a. It is considered essential that sufficient shipping be provided to permit motor transport, cranes, and other cargo handling equipment to be so loaded as to facilitate early landing on "A" Day. This is necessary to insure prompt removal

of supplies and equipment from beach and dock areas, and is particularly important when no opposition to the occupation develops.

b. If at all possible, advance echelons composed primarily of representatives from the G-3 and G-4 Sections should be sent out in sufficient time in advance to survey and assign unloading facilities, billets and storage areas. This advance section should have definite authority to allocate such buildings and areas and require the local civilian government to prepare them for immediate use "A" Day.

c. Positive action must be taken by responsible agencies to insure that all units arrive at the target with sufficient rations as determined by plans and prescribed by orders.

d. When seasonal changes in the early stages of the occupation are indicated, it is recommended that all organizations mount out with clothing and equipment necessary to insure health and comfort of personnel. In this operation many units arrived without wet and cold weather clothing and heating stoves. The situation was further complicated by the late arrival of this equipment in resupply shipping.

e. When Marine units are used in occupation duty which involves the destruction or disposal of large quantities of enemy war supplies and materials, they must be augmented by the assignment of trained ordnance personnel and with personnel specially trained in handling ammunition and explosives of all types. This is particularly true when the forces involved are spread over a large area with small units engaged in this duty.

f. When a Marine Corps, operating under an Army, is responsible for the logistical support of troops dispersed over a large area involving the large scale employment of railways and water transport, it is essential that it be augmented by the assignment of sufficient Army Transportation Corps personnel in its staff sections. The other alternative is the assignment of an ASCOM to the Corps to perform the necessary control and operating functions.

7. G-4 REPORT CONCLUSION.

a. The amount of supplies and equipment provided was sufficient, and the Corps organization was adequate to provide

CONFIDENTIAL

the logistical support necessary for the operational requirements for the occupation of that part of JAPAN assigned as its zone of responsibility.

b. Throughout the planning, movement, and operational phases, the cooperation and assistance of the SIXTH Army's corresponding staff sections was excellent. The assignment of officers from these sections for liaison with the corresponding sections of this Corps was greatly appreciated and in all cases their performance of duty was highly satisfactory.

c. The comment expressed in paragraph b. above applies in equal extent to the assistance and cooperation of the Service Command, Fleet Marine Force, Pacific. The services of its agencies in the various areas involved in furnishing the necessary supplies and equipment for mounting out was as complete as possible and greatly appreciated. The Service Command organization for the planning and establishment of resupply shipping was particularly outstanding.

d. The organization and functioning of the 8th Service Regiment as the principal logistical supporting agency for the Corps was adequate and very satisfactory. This organization contributed materially to the accomplishment of the logistical requirements for the support of the occupation mission and, in the early phases, under conditions of inadequate storage facilities and adverse weather conditions.

e. The functioning of CUB 18 in furnishing naval support for the operation of port facilities was adequate and satisfactory and, as in the case of the 8th Service Regiment, was accomplished under adverse conditions. In addition to supporting the Corps, this organization was required to furnish many services for U.S. Naval Forces afloat operating in the KYUSHU Area. These duties were performed in a highly efficient manner and were of material assistance to the overall occupation mission.

M. C. HORNER,
Colonel, USMC.

APPENDIX 1 TO ANNEX EASY

TO VAC OPERATIONS REPORT

OCCUPATION OF JAPAN

TRANSPORT QUARTERMASTER REPORT

ENCLOSURE (A)

0101/250

HEADQUARTERS, V AMPHIBIOUS CORPS,
TRANSPORT QUARTERMASTER SECTION,
C/O FLEET POST OFFICE, SAN FRANCISCO, CALIF.

CONFIDENTIAL

30 November, 1945.

From: The Transport Quartermaster.
To : The Commanding General.

Subject: Transport Quartermaster Report, Occupation of JAPAN.

1. Planning for the assualt on KYUSHU had been in progress for several weeks prior to reporting of the Corps to the SIXTH ARMY on 1 July. On the basis of information previously received, estimates as to shipping required for the movement of the Corps and attached army augmentation units were prepared and submitted to SIXTH ARMY, upon reporting, for their information in the allocation of shipping. Planning had progressed to the point that TransRons had been formed and assigned to lift specific units when word was received on 14 August that JAPAN had capitulated. Several days passed before definite information was received that the Corps would participate in the occupation. Individual ships of TransRons assigned for the assault on KYUSHU were being employed on other missions until the dates upon which they were to assemble. As the earliest of these dates was 1 September and as the target date for the landing was 22 September, it was found necessary to form provisional TransRons for the movement.

2. Provisional TransRon 22, consisting of 14 large, 4 small APAs, 3 large, 5 small AKAs and 1 LSV; plus 17 LSTs and 15 LSMs; was assigned to lift the initial echelon of the 5th Marine Division and Corps Troops on 20 August, to commence loading on 22 August. Detailed planning was of necessity hasty and incomplete, resulting in considerable confusion in the actual loading operation. Some moderation was made in the amount of supplies to be lifted, but essentially the administrative order prescribing the equipment and supplies to be lifted for the operation against KYUSHU was adhered to. A notable exception was the reduction from 5 to 3 units of fire for artillery and infantry weapons. Loading commenced on 22

- -
APPENDIX 1 TO A NEX EASY TO VAC OPERATIONS REPORT, OCCUPATION OF JAPAN.
- -

CONFIDENTIAL

August and was completed on 31 August. Lack of time for proper preparation of loading plans, and the last minute delivery of supplies and equipment caused a few items to be left on the docks when loading was completed. The initial echelon of LSTs completed loading and sailed from the HAWAIIAN Area on 30 August via the great circle route direct to the target. TransRon 22 departed the HAWAIIAN Area on 31 August enroute to SASEBO via SAIPAN. LSMs were also routed via SAIPAN, departing 28 August. A second echelon of 17 LSTs departed the HAWAIIAN Area 3 September via the great circle route, arriving SASEBO three days after the initial landing. ComPhibsGroup 4 and the operating staff of the 5th Amphibious Corps departed the HAWAIIAN Area on 1 September in the Mount McKinley, AGC-7, and rendezvoused with TransRon 22 on 3 September.

3. Enroute to SAIPAN radio silence and the blackout were lifted. A constant stream of messages was received. The 3rd Marine Division was deleted from the troop list and the 32nd Infantry Division was added. TransRon 12 (provisional), consisting of 15 APAs and 6 AKAs, plus 15 LSTs and 20 LSMs, was assigned to load the 2nd Marine Division at SAIPAN. A system of priorities was set up for the call forward of Army augmentation units. The troop list changed continually through the deletion or addition of augmentation units. Charts and photographs of SASEBO Harbor were studied and landing points and berths were selected.

4. TransRon 22 arrived at SAIPAN on 13 September. Liaison officers from the SIXTH ARMY came aboard with additional information as to augmentation units and resupply shipping. A conference was held with representatives of the 32nd Infantry Division relative to the mounting out of that organization. An advance party from Corps Headquarters embarked aboard APDs and departed for SASEBO. The 2nd Marine Division continued loading in TransRon 12, completing on 16 September. TransRon 22 fueled and departed on 16 September; TransRon 12 following on 17 September. Shipping provided in TransRon 12 was sufficient for the complete roll-up of the 2nd Marine Division.

CONFIDENTIAL

CONFIDENTIAL

5. The voyage from SAIPAN to SASEBO was uneventful, although thorough precautions were taken with respect to mines, beginning A-2. Upon arrival at SASEBO, on 22 September, RCT 26 was landed over Green Beaches, Sasebo Naval Air Station, by small boats without incident. RCT 27 in TransDiv 39 proceeded to the inner harbor and began unloading. Some alongside berths which had been selected by studies of photographs and charts were reported unsuitable by the advance reconnaisance party, and plans had to be revised accordingly. All docks were found to be extremely congested and littered with scrap and debris. Access roads were poor and dock aprons were unpaved. In spite of these handicaps the 5th Marine Division, which was given priority, completed unloading in 88 hours, and the entire TransRon was completed on 25 September. TransRon 22 (less Fallon and Colusa) departed in echelons to load the 32nd Infantry Division at LINGAYEN.

6. The 2nd Marine Division in TransRon 12 landed at NAGASAKI on 23 September. Unloading conditions even worse than those at SASEBO were found to exist. Only 3 alongside berths were available, and these were extremely poor from the standpoint of access roads and storage areas. The bulk of unloading was by small boat from the stream. The division completed unloading and TransRon 12 sailed on 28 September for MANILA.

7. Considerable work was necessary in order to clear the dock area at SASEBO of gear which had been unloaded by the troops. Troops, their supplies and equipment had to be moved by rail to occupy strategic points to the north. The highway system was found to be almost non-existent in the SASEBO Area, the elapsed time of a vehicle trip to FUKUOKA, about 65 miles, being approximately 9 hours. Bridge limitation were initially 6 tons. Consequently the entire burden of moving troops and supplies to the north was thrown upon the railroad. As SASEBO is not on a main line, the railroad facilities were taxed to capacity from the first.

CONFIDENTIAL

8. The first resupply ship arrived 25 September and began discharging on 28 September. Discharge was extremely slow because of dock and dump conditions. It was necessary to discharge all cargo directly into vehicles as the dock aprons were so narrow that no space existed for the stockpiling of cargo on the docks. Although aprons have now been cleared of scrap and improved to the maximum extent practicable, this condition still exists. Docks facilities continued to be developed until 7 ships could be put alongside and unloaded simultaneously at the primary unloading point. Alongside berths for two ships were developed on the southwest side of the harbor but were not used except in case of emergency because of poor access and the long haul involved. Two (2) dry docks were used to a limited extent because of overhead crane facilities. Because of the stepped onstruction of the sided of the dry dock, the use of ship's gear for unloading was limited by the distance which ships had to be held away from the apron.

9. Initially the responsibility for the unloading of resupply shipping was delegated to the 8th Service Regiment. For the task of unloading, this organization was reinforced by the attachment of 4 Army Port Companies, and had under their operational control a Special NCB. Under these arrangements a maximum of 11 resupply ships could be discharged simultaneously. The Corps Shore Brigade was reactivated on 23 October and took over the detailed coordination and supervision of the unloading of resupply shipping. It was discovered early in the unloading that the controlling factor in the maximum rate of unloading was to be the ability of the dumps to receive and process the cargo rather than the ability of the stevedores to get it off the ship. Warehouses had to be cleared of masses of machinery and scrap, and open storage areas had to be bulldozed in the burned out areas of the town. Warehouses in many instances were found to be unsuited to unloading because of entrances so low that trucks could not enter. The necessity for receiving cargo and making issues from the same warehouses further complicated the problems. This situation has now largely been overcome by the movement of thousands of tons of materials from these warehouses and areas, and because of the im-

CONFIDENTIAL

provements which have been made in existing facilities. A peak in the backlog of ships to be unloaded was reached on 10 November when there were 35 ships in SASEBO Harbor of which 32 were either unloading or awaiting discharge. This backlog has been reduced to the point that as of this date only 14 ships are discharging or awaiting discharge.

10. A number of ships which had been originally consigned to other ports were diverted to this area for unloading. The bulk of these contained Navy construction materials, equipment and portable housing which had been intended for SUBIC BAY. One of these ships contained 117 lifts which could not be handled by ship's gear, thereby creating a considerable unloading problem. This situation also occurred on some of the resupply vessels especially loaded for SASEBO. Many tons of supplies and equipment have had to be unloaded even though there was no foreseeable use for the particular items. The burden of discharging useless materials thrown upon a port with the limited facilities of SASEBO created considerable difficulties and was accomplished at the expense of unloading of vitally needed supplies and equipment.

11. For the operation against KYUSHU it had been planned to use ULITHI as a regulating station for resupply shipping. This was changed following the surrender to make OKINAWA the regulating station. Then, in view of the delay in the opening of the harbors at FUKUOKA and SHIMONOSEKI, SASEBO was selected as the regulating station. This arrangement was entirely satisfactory as the bulk of the unloading was of necessity at SASEBO. From SASEBO resupply ships were fed into NAGASAKI as they could be unloaded. As of the date of this report the opening of the FUKUOKA Harbor is still indefinite and the prospects of SHIMONOSEKI Harbor being opened to allied shipping in the immediate future are poor.

12. TransRon 22 (less Fallon and Colusa) lifted the 32nd Infantry Division at LINGAYEN during the period 3 - 9 October and arrived SASEBO 14 October. Unloading was partially dockside, partially by small boat over Green Beaches, and

CONFIDENTIAL

was completed on 25 October. RCT 128 and RCT 128 proceeded to FUKUOKA by rail and motor serial upon completion of unloading. RCT 127 relieved RCT 26 of the 5th Marine Division at SASEBO and RCT 26 immediately embarked in 3 APAs, sailing for PELELIEU on 1 October. Heavy vehicles and 2 units of fire of the 32nd Division were transhipped to 4 LSTs to await opening of FUKUOKA Harbor.

13. Army augmentation units were echeloned in by APAs, AKAs, LSTs, LSMs and LCTs. These units were landed primarily by small boats and landing craft over Green Beaches at the Sasebo Naval Air Station and proceeded to NORTHERN KYUSHU by rail and motor serial. Some heavy vehicles which could not be moved by rail or road were stockpiled at SASEBO awaiting opening of FUKUOKA Harbor. As of this date 6 LSTs loaded with supplies and equipment of the 32nd Division and augmentation units are standing by in SASEBO Harbor also awaiting the opening of FUKUOKA Harbor.

14. (a) The following is a recapitulation of the shipping discharged by the Corps in KYUSHU ports during the period 22 September - 30 November, 1945.

NUMBER	TYPE	LONG TONS	MEASUREMENT TONS
65	APA	39,000	111,930
32	AKA	52,600	165,300
2	LSV	1,550	4,450
260	LST	117,000	335,700
62	LSM	10,850	31,200
51	LCT	6,375	18,200
41	MERCHANT	122,039	350,252
513	TOTALS	354,414	1,017,032

(b) The following is a recapitulation of railway activity resulting from the occupation of KYUSHU during the period 22 September - 30 November, 1945.

CONFIDENTIAL

Total passenger car miles	138,167
Total net ton miles (freight)	3,462,373
Total tonnage shipped by rail from SASEBO	31,689
Total passenger cars dispatched from SASEBO	719
Total freight cars dispatched from SASEBO	3,243

15. The Corps Transport Quartermaster section was augmented by a rail officer and an air officer shortly after the Corps was established ashore. The section continued to handle amphibious shipping in the usual manner, but in addition was charged with the responsibility for collection of cargo information on resupply shipping and submission of required reports thereon, for the movement of all shipping consigned to the Corps, for the assignment of unloading berths, for the assignment of lighterage, and for the general coordination of all unloading activities. All movements by rail from SASEBO were booked through the rail officer, and all air travel, both passenger and freight was booked through the air officer. These modifications were found necessary in order to conform to Army procedure, and the section was modeled to some extent along the lines of an Army Transportation section. Close liaison with the Port Director and the Shipping and Receiving Section of the 8th Service Regiment was maintained by direct telephone.

16. Comments and Recommendations.

(a) Shipping assigned for the lift of troops from the HAWAIIAN Area was inadequate. As a result it was necessary for the Corps, 5th Marine Division and 8th Service Regiment to leave large amounts of needed equipment in rear echelons. It is realized that shipping was being employed in other missions at the time of the surrender, however it is recommended that troops furthest distant from the target be given priority in movement and that steps be taken to provide adequate shipping in any future operation of this nature.

CONFIDENTIAL

(b) This is the only occasion in the history of the Marine Corps in which Marines have been required to operate a port of the magnitude and activity of SASEBO. Because of the strictly tactical nature of the Corps there are no specialists or trained personnel available to perform duties similar to those performed by an Ascom Base. It is therefore recommended that an Ascom be provided in any future operation in which a Corps of Marines operates under Army control.

(c) The diversion of shipping loaded with ABCD equipment to SASEBO for unloading created serious handling and storing problems. It is recommended that this practice be discontinued in the future except in cases where such material has been specifically requested.

(d) Numerous problems also arose in the unloading of heavy lifts from ships which had been loaded by crane. It is recommended that no lift which cannot be handled by ship's gear be loaded on shipping coming into a combat area unless definite assurances has been received that facilities are available for handling such lifts.

(e) Partial discharges of reefer and engineer resupply ships have been necessary at this port. Because of lack of space to stockpile unwanted materials and reefer cargo pending reloading, this has also created a serious problem. It is therefore recommended that partial discharges be kept to a minimum in future operations.

Appendix 2 to Annex EASY

to VAC Operations Report

Occupation of JAPAN

QUARTERMASTER REPORT

HEADQUARTERS, V AMPHIBIOUS CORPS,
0144/231 FLEET POST OFFICE, SAN FRANCISCO.

CONFIDENTIAL 30 November, 1945.

From: Corps Quartermaster.
To: The Commanding General.

Subject: Corps Quartermaster Report, Occupation of KYUSHU, JAPAN.

References: (a) Corps Special Order No. 120-45, dtd 1 Nov45.
(b) V Amphibious Corps Administrative Order No. 6-45.

Enclosures: (A) Ration Breakdown for mounting out.
(B) Class Three Breakdown for mounting out.
(C) Wet and Cold Weather Clothing Breakdown for mounting out.
(D) Camp Equipment Breakdown for mounting out.
(E) Military Government Supplies Breakdown for mounting out.

1. This report is submitted in compliance with reference (a) to give a concise overall picture of the duties and functions of this section during the occupational operation of KYUSHU, JAPAN.

2. Enclosures (A) to (E) inclusive are in support of the narrative portion of this report.

3. PLANNING AND PREPARATORY PHASE.

a. General.

(1) A Corps Quartermaster was assigned to the G-4 Section of the Fifth Amphibious Corps Staff 20 July 1945, there previously having been none. The decision to add a Corps Quartermaster Section was predicated on the fact that for the assault landing on Southern KYUSHU a considerable number of U. S. Army Quartermaster organizations and units were being added to the Corps and a Staff representative was desirable. The section consisted of three Officers (2 Marines and 1 Army liaison) and three enlisted. It was purposely kept small so that its activities would be limited to staff functions and there would be less temptation to become involved in operational details which should properly be left to the organizations actually handling the supplies.

b. Planning.

(1) Plans covering initial supply and re-supply were formulated by higher headquarters. Corps plans involved only the proper distribution and utilization of supplies as received. These plans were promulgated as Annex EASY to Administrative Order No. 6-45. It is believed that this plan would have been adequate for assault operations inasmuch as it provided satisfactory logistical support during the Occupation of KYUSHU, JAPAN.

4. ORGANIZATION AND TRAINING.

a. Organization.

(1) The supply organization for the Corps consisted of two groups of about equal size performing almost identical functions. One group was organized according to Marine Corps and the other according to U. S. Army T/O's. Some very interesting comparisons may be drawn.

(2) The composition of basic units warrants further study. The Marine Corps units are based on T/O's drawn up in traditional form, a complete T/O being necessary for each administrative unit. Since operating conditions vary widely, and no two problems are the same, the T/O tries to provide a universal solution for variable conditions. The result is a ponderous, inflexible T/O which fits no condition well. Army T/O's, on the other hand, provide an ideal means to tailor the organization for the particular job. Each specific function is covered by a T/O of the optimum size to perform a unit of work, and the individuals constituting the unit are trained in their particular specialty. These units are not administrative, and have no function to perform other than their specialty. When it has been determined just what working units are required, a sufficient number of administrative units (QM Bn Hdqtrs, etc) are added to tie the organization together and supervise its activities. This system provides a highly flexible and efficient means of setting up complete supply organizations.

(3) Basic organization differs in one other fundamental respect. Under Army practice, unified overall supervision of the several technical activities is not carried in echelons below the G-4 staff section. There is no common head for technical operating activities, other than its own staff supply representative. It follows logically

therefore, that G-4 himself takes over much of the operating supervision of the several technical services under him. This results in enormous staff sections, and the end result is that management functions are vested in the Board of Directors - a poor basis of operations to say the least. Marine Corps supply practice is on a more workable basis. The Commanding Officer of the Service Regiment acts as the operating representative of G-4. He assumes the functionsof operational management, leaving the G-4 free for purely staff functions. This is considered as being much more efficient and more economical of personnel. Observation of the two systems operating side by side during the occupation of JAPAN, confirmed this belief.

b. Training.

(1) The training of the 8th Service Regiment and of the two Marine Division Quartermaster units was observed. They were well trained and accustomed to working together when they embarked for the occupation. On the other hand, the Army units were scattered from HAWAII to HOLLANDIA and the PHILIPPINES. Because of the distances and the wide dispersal there was no means of observing or integrating the training of these units, which joined the command at various times during the first 60 days of the occupation. Individually they were well trained in their specialties, but they were not trained to work together as a team. No administrative unit had the whole picture and none was competent to rapidly organize a complete supply depot when they were thrown on their own resources. The very flexibility of Army T/O's fosters the tendency to neglect training in teamwork. A coach would soon lose his job if he sent his team into the Thanksgiving football game without a single scrimmage, but we were prepared to commit a major portion of our supply team to combat without any training in teamwork whatsoever. Fortunately the enemy was already knocked out, so it did no serious harm, but a pertinent lesson should be drawn from it.

5. Occupational operations with comments and recommendations.

a. Initial Supply.

(1) Deliveries of initial supplies were set up by the Service Command, FMF, Pac. Advance of embarkation date caused some confusion, but the majority of items were received in time. Exceptions noted were:

(A) Kerosene stoves. Fortunately these could be included in rear echelon shipments, but they were needed before they were received.

(B) Landing mat. This was on hand in the HAWAIIAN area several weeks before embarkation, but was not delivered to troop units. It was badly needed, and might have been extremely critical if an assault landing had been made.

(C) Mounting out rations were not properly balanced, and this caused considerable criticism, and some discomfort.

(2) Army units were not so well provided. They mounted out with no cold-wet weather clothing and no stoves. Many of the small miscellaneous units had no mounting out rations, or rations in insufficient quantities. This was the cause of much irritation and a tendency to blame the local supply agencies for the results of poor staff work in the mounting out agencies.

(3) Rear area supply headquarters and depots failed badly in one respect. Supply officers of combat organizations are vitally concerned to know the status of the many items which should be furnished them. Adequate paper routines exist to give everyone interested timely and prompt information, but this is almost wholly neglected. Division quartermasters, Service Regiment commanders, and G-4 staff officers vitally interested are left almost completely in the dark.

b. Re-supply.

(1) Plans for re-supply were just about perfect. Loadings had been started for assault and combat operations. They were changed wherever possible to provide for the needs of an occupation force. It was not known until some time after landing just how much opposition would be encountered, and how long troops would have to remain in KYUSHU nor under what conditions. Equipment and supplies were provided for almost any contingency, and since the smallest imaginable demands were met, large quantities of various items were unloaded which were not actually needed. It frequently was necessary to unload much cargo not wanted to get at some vital items in the lower holds.

(2) While re-supply plans were above criticism, the execution of those plans was not. Fresh provision ships did not arrive as planned, and in one or two cases stores intended for the KYUSHU area had been discharged at other points before arrival at destination. However, there at all times was plenty of canned rations, and, while variety was lacking, nobody suffered from lack of food through failure of supply lines. When fresh provision ships began to arrive, there was such a large quantity of fresh stores that it would have been impossible to prevent considerable spoilage had it occurred in the summer time. It cannot be too strongly urged that sufficient reefer barges be invariably provided to care for adequate stores for all the troops in an occupied area.

c. Post Exchanges Supplies.

(1) Marine Corps units habitually have trained post exchange personnel, and as a rule take PX supplies both in their advance and rear echelons, which permits setting up sales stores promptly. Army practice is at sharp variance with this procedure. They depend upon the accessory ration pack for luxury and morale items for long periods. Combat organizations lack any approved method of handling post exchanges as such and depend upon quartermaster sales items for certain supplies. These cannot be dispensed until sales stores are put into operation. Advance planning would have greatly facilitated opening of stores in this case.

(2) The supply of beer was in excess of requirements, due more or less to the cool weather encountered. The supply of coca cola was curtailed in anticipation of local bottling facilities which did not materialize. Ice cream machines would have decreased the demand for both these items, and take up less shipping space.

d. Housing.

(1) Japanese barracks were taken over for use by our troops wherever possible. They were universally vermin infested. This caused a heavy expenditure of DDT and other insecticides. Considerable quantities in excess of allowances had been provided, but the requirements far exceeded the supply. Future plans should provide ample supplies for all purposes.

(2) Rats are another major pest. The rat population of both warehouse and barracks areas is tremendous, and no adequate means has been found to cope with them. It is

anticipated that they will be a continuing and increasing problem of serious proportions which will cause appreciable losses in both food and equipment as well as being a danger to health.

e. Port Facilities.

(1) Although there are many ports on the island of KYUSHU only two were used primarily. Nagasaki provides limited berthing space, so was only used to a small extent. The port of Sasebo was suitable for landing the majority of supplies for troops of the Occupation Forces, and they were distributed by rail from there. The harbor itself is excellent, but warehousing and freight handling facilities are meager. The hills slope sharply into the bay so that there is no marginal space which could be developed into storage yards. The most suitable area for open storage was the burned out center section of the city of Sasebo, which the 8th Service Regiment bulldozed into shape, and converted into a storage yard. Prior to embarkation, estimates of the area required for warehouse and open storage had been submitted, but adequate allocations of space were not made on landing. Wharves and nearby areas were found to be piled high with junk and shops and warehouses were full of stores, equipment and machinery. Gradual improvements were made in the dock area, but vigorous action was not taken to clear the buildings and aprons so that cargo could be handled expeditiously, and the 8th Service Regiment was left largely to its own resources. It had neither the personnel nor the equipment to prepare the area as rapidly as required and all supply functions were seriously hampered by the congestion in the unloading area. The basic organization for port and stevedoring activities is believed to have been faulty and warrants careful study.

(2) Ships sailed from Army sources almost invariably lacked complete manifests and other ships' papers, and in several instances there were no papers at all. This is a serious oversight, and it caused much confusion and unnecessary effort. The consignee in a combat, or even an occupation zone, is a busy and harrassed individual always operating under pressure. To fail to provide him with every facility possible is inexcusable.

(3) Marine Corps re-supply ships on the other hand furnished an excellent example of how it should be done. Each ship carried a super-cargo with complete papers and exact knowledge of the cargo and how it was loaded. A liaison group preceded the ships by air, bringing complete information, and they were prepared to set up an office and lay out stowage diagrams for handling the supplies ashore. Particular credit is due the Supply Service and the officers and men who performed this duty.

f. Air Deliveries.

(1) A few requests were made for critical supplies to be delivered by air. At the end of two months only one single shipment had been received by air.

g. Fukuoka Base Command.

(1)Inasmuch as the majority of activity of Army units was in the Fukuoka area, service troops were concentrated there as they reported in KYUSHU and put under the Fukuoka Base Command as a major supply point for the area. It proved to be difficult to build up a satisfactory level of supplies because of the fact that the port was closed by mine fields which were difficult to sweep. All supplies had to be brought in by rail or convoy from Sasebo and Nagasaki, and the rail capacity was limited both by size of rolling stock and train capacity. Refrigerator cars (icer type) were available for frozen products. A few tank cars for petroleum products were available. The troop population in the Fukuoka area was increased to the point where it required constant effort and full use of shipping facilities to keep them supplied.

L. S. SWINDLER,
Colonel, USMC.

Enclosure (A) to Appendix 2 to Annex EASY to VAC Operations Report.

RATION BREAKDOWN FOR MOUNTING OUT

CONFIDENTIAL

1. CLASS I.

a. Rations, field.

(1)	Type "B"	20 D/S
(2)	Type "C"	5 D/S
(3)	Type "D"	1 D/S
(4)	Type "10-in-1"	5 D/S
(5)	Assault Candy Rations	2 D/S
(6)	Army QM Ration Accessory Pack	30 D/S

b. Special Ration Components 20 D/S

(1) Bulk Coffee - 8 lbs/100 men/day
(2) Canned milk - 10-14½ oz. cans/100 men/day
(3) Sugar - 3 lbs/100 men/day
(4) Fruit - 1/2 pt/man/day
(5) Soup - 4 oz/man/day
(6) Fruit Juice - 4 oz/man/day

c. Bread Components. 20 D/S

(1) Jam - 2 oz/man/day
(2) Flour - 17 lbs/100 men/day
(3) Milk, dry, powdered, skim - 1/3 lb 100 men/day
(4) Lard, war style, - 1/3 lb/100 men/day
(5) Salt, - 1/3 lb/100 men/day
(6) Yeast - 1/6 lb/100 men/day
(7) Sugar - 1/2 lb/100 men/day

d. Hospital (Assault) Ration - 1 ration/hospital bed/day 30 D/S

e. Dog Rations - 1 ration/dog/day 30 D/S

f. Beverage pack, Aid Station, for following units in amounts indicated:

(1) 1 per Hq. Sec., Med Det. Inf. Regt.
(2) 2 per Bn. Sec., Med Det. Inf. Regt.
(3) 1 per other Med Det.
(4) 5 per Corps & Div Med Cos.

CLASS III BREAKDOWN FOR MOUNTING OUT

CONFIDENTIAL

Item	Symbol or Spec No.	Per VMO Squadron
Avgas, 73 Octane		7,200 gal.
Avlube, SAE 50	1100	216 gal.

Item	Symbol or Spec No.	Unit	Per Man
Diesel, 50 Cetane		gal.	6.9
Mogas, 80 Octane		gal.	12.5
White, gas		gal.	2.0
Kerosene		gal.	2.0
Luboil, SAE 10	9110	gal.	.05
Luboil, SAE 30	9250	gal.	.605
Grease, GP, No. 1	2-107	lbs.	.37
Luboil, SAE 50	9500	gal.	.35
Grease, GP, No. 2	2-108	lbs.	.20
Gearlube, SAE 90	VV-L-761	lbs.	1.0

WET AND COLD WEATHER CLOTHING FOR MOUNTING OUT

CONFIDENTIAL

ITEM	ALLOWANCE
SHIRTS, flannel, each	2 per man
UNDERSHIRTS, woolen, each	2 per man
DRAWERS, wool, grey, pair	2 per man
TROUSERS, enlisted men's, winter, pair	1 per man
SOCKS, wool, cushion sole, O.D., pair	3 per man
SOCKS, wool, heavy, O.D., Army, pair	4 per man
SOCKS, ski, wool, pair	2 per man
GLOVES, wool, w/leather palm, pair	1 per man
JACKET, field, M1943, ea. or Jacket, Field, O.D.	1 per man
VEST, alpaca lined, each	1 per man
TROUSERS, field, cotton, O.D., pair	2 per man
BOOTS, shoe pack, 12", pair, w/2 felt insoles	1 per man
CAPS, cotton, field, O.D., each	2 per man
HOOD, jacket, field, M1943, each	1 per man
MITTEN, shell, trigger finger, pair, w/mitten insert, trigger finger, or GLOVE, mitten, leather, fleece-lined, Marine Corps type, pair	1 per man
BAG, sleeping, wool, w/water repellent case, ea.	1 per man
SWEATER, high neck, convertible collar, each	1 per man
MUFFLER, wool, O.D., each	1 per man
SUSPENDERS, trousers, pair	1 per man
CAP, wool, knit, M1941, each	1 per man
INSERT, wool, f/mitten, shell, trigger finger, ea.	1 per man
BAG, clothing, waterproofed	1 per man
COVERALL, protective, (two pc., Navy type, Arnzen cloth)(unimpregnated), each (Winter Camouflage clothing)	2,500 per div.
MITTENS, over, white, pair (Winter Camouflage clothing)	1,500 per corps
OVERCOATS, parka type, pile lined, each	1,500 per 2nd, 3rd and 5thMar Divs.
HELMET, combat, winter, each	Per T/A Allowance
JACKET, combat, winter, each	Per T/A Allowance
TROUSERS, combat, winter, pair	2,500 per div.
CAPS, storm, skin or pile lined, each	1,500 per Corps
COATS, skin or pile lined, each	3,500 per 2nd, 3rd and 5th Mar Divs.

Enclosure (D) to Appendix 2 to Annex EASY to VAC Operation Report.

CAMP EQUIPMENT FOR MOUNTING OUT

CONFIDENTIAL

(1) Tentage
(2) Tarpaulins
(3) Galley (Kitchen) and mess equipment
(4) Tent stoves
(5) Cots, field
(6) Bath and sterilization units
(7) Housekeeping supplies
(8) Portable and mobile generators
(9) Prefabricated Heads (latrines), galleys (kitchens) and mess halls.
(10) Recreational equipment

Enclosure (E) to Appendix 2 to Annex EASY to VAC Operation Report.
