CITATIONS

GENERAL ORDERS
NO. 14

WAR DEPARTMENT
Washington, March 9, 1942

* * * * *

The North Luzon Force, United States Army Forces in the Far East, is cited for outstanding performance of duty in action. Attacked on December 23, 1941, when in a state of partial mobilization and training, in the vicinity of Lingayen Gulf, Pangasanan, Philippines, the North Luzon Force withstood repeated assaults by greatly superior forces. When forced to withdraw by sheer pressure of numbers, despite the very heavy casualties inflicted upon the enemy, this Force maintained complete cohesion while executing difficult delaying action under heavy ground attacks supported by continuous bombardment from unopposed dive bombers. Losses in some organizations exceeded 50 percent, but the undaunted valor of the depleted command made possible the successful withdrawal into the Bataan Peninsula on January 6, 1942.

* * * * *

The I Philippine Corps, United States Army Forces in the Far East, is cited for outstanding performance of duty in action. Attacked on January 21, 1942, in the Bataan Peninsula, by Japanese forces that were superior in numbers, training and equipment, and with complete superiority in the air, its units maintained position through sheer tenacity despite penetrations in its front and left rear. Skillfully executed counterattacks driven home with magnificent courage on part of the troops resulted in the isolation of four hostile elements and their consequent complete annihilation, thus restoring on February 14, 1942, the integrity of the corps front.
