EXPLANATION OF FINAL RAMP REPORT
OF
COMMANDER MARIANAS

The final report listing all repatriates that have been processed in the Marianas area, has been compiled for and distributed to those commands who might be interested in having this information readily available.

The listings have been broken down according to type of repatriate (Navy Officer, Navy Enlisted, Civilian, etc.) and each type has been stapled separately so as to provide easy reference. Each type is also listed alphabetically.

Where place names appear in the "Departed" column, they signify the destination of the repatriate. Where "ATC" appears in either the "Arrival" or "Departed" column, it indicates that the repatriate passed through the Marianas prior to the establishment of the RAMP Unit and, therefore, no dates were available.
