Regular issue minimum. To

mean 16 eggs. 15 eggs. Imported eggs only.

31 MAR

1030 hrs. Instructions received from C. of C. H. P. That all men over 50 (number actually on gardening

work) would have to be shown an available

for other duties on availability returns. This is NOT in accordance with original arrangement made.

by Capt. Hall, with the Battalion and Capt.

Hall, therefore, immediately made a strong

protest.

Regt. Haarer party to transport concert party

to "pros" for A. C. H.

Summary for Month:

Good weather has kept up the spirits.

and entertainments have been no problem from executive. 22 MAR (conf) and 23 MAR (Home).

Movements of troops towards the end of the month resulted the no. of lectures arranged and report

activities of the men.
The N.C.O.s who attended the course at the beginning of the month profited by their weekly revolutionary training, and as a result, movement of unit parties around the area improved.

The contributions by the men enabled the messing fund to purchase additional goods to supplement the I.T.A. stores, and all huts were able to serve more palatable food.

The movement of two parties from Trang - one D of 2500 men on 6/11 MAR and Force E of 500 men on 28 MAR (we only had personnel in the latter party and then only 1575) - meant that, in addition to our randomly party of 50 men daily and our D.R. served throughout the A.I.F. Area,Adjutants were called on regularly for trailer parties. All thoughts of any fanfare had therefore to be abandoned. The personnel under their care were quartered in Barracks Quarter and at the C.A., regard the units on 13 MAR, we having vacated our area in Sept 16 and taken over from 15/14 on 17 MAR.

Our numbers approx 300, did not allow of any space to be allotted as mess rooms; although the men were NOT hot crowded - there being about 32-35 to a flat, some were re-organized according to a flat. Men were to observe the regulations for release of N.I.M. kitchen quarters. The week's issue would consist of 3 huts of rice and 1 canteen of meat, the effects on left.

Our experience with regard to radio communication was not entirely satisfactory. The men did not communicate the work in a thorough manner. The men had little or no complaints due to vitamin deficiency.

New agonists are normally on light duty. No duty should be assigned which would reduce our available men for trailer parties. The light duty personnel have been used in making tobacco, and the making of disinfectant from disinfectant, and the affixing of great success. But police were also made from palm root of great success. But police were also made from palm root. Great success.

The outstanding events of the month were the reception of the mail from Australia. From 10-31 MAR approx. 300 letters, 1000 cards were received from unit personnel at Trang. The letters were sent from here in early August. Two were delivered to Major, Major Duggan, Major, Major Duggan, Major, Major Duggan, Major, Major Duggan, Major, Major Duggan, Major, Major Duggan, Major, Major Duggan, Major, Major Duggan, Major,        | 0600 hrs: Rest at Rouseville. The continued as on previous day, excepting that morning work was on in camp. A few new cases of dysentry found.

22 APR | 1100 hrs: Arrival at Bangong in Thailand and de RNA. Party moved off flat just a little before station and took all new recruits with them. 15.00 hrs: A few new cases of dysentry found.
22 APR. 
It was learnt now that the men now had a long march in front of them and the only way that could be taken was one which would be carried. This was quite contrary to information given at times. Men immediately began to riot, and asked anything that was not absolutely necessary. Officers were ordered not to issue anything that could not be taken, as the men were left alone and with little supplies. Approx. 1400 hrs men started out to march to get supplies. The troops were all provided with blankets, but there were not supplied with any food, as the men were not allowed to purchase from the locals. They had already gone through.

1200 hrs. Main base No. 2, containing Lt.-Col. Kakooeg's staff, received. Main defenses had been similar to ours.

2330 hrs. Fell in for Main No. 1. 2350 hrs. I.T.A. check.

23 APR. 
0030 hrs. Party moved off on short of 24 hrs. march march.

A march notice was given by the staff to inform the men. Small parties were formed and marched at about 0430 hrs. We had to provide our own food to prepare meals (breakfast, lunch, and small piece of bread, but no other supplies). The men were also permitted to take any provisions and consumed large quantities of eggs, coffee, etc. to supplement their meals. The view of the mountain range and the possibility that it was to continue for many days, men were allowed to consume the reserve rations they had brought with them.

2350 hrs. Fell in for next stage of march. Distance off 25 miles.

1100 hrs. From. 25 miles from the landing. 1400 hrs. We left the base to march to the mountain range which had been carried by the men the previous night. At the baggage half, the sick were again separated and the I.T.A. allowed another 60 to be transported.

25 APR.
0930 hrs. Arrived at base No. 3. Only covering was one shelter for cooks.

1030 hrs. I.T.A. staff in from 2 mile away. Men were permitted to swim in river about 1 mile away, passing there in organized fashion under I.T.A. guard.

Night spent at this camp—Kanchan Buri.

26 APR.
0930 hrs. Main base for permanent arrival.

1400 hrs. One party proceeded to I.T.A. hospital about 3 kilometers.

1600 hrs. One party proceeded to I.T.A. hospital about 3 kilometers.

2130 hrs. Fell in for next stage of journey. 2200 hrs. During this stage we left the food stores that had proceeded along with the march. At half past 3, the medical stores had been broken up and given to individuals with the exception of 2000. The men were all much better.

27 APR.
Opportunities received at half past 1. Breakfast; hot tea, hot meal, with facilities to purchase from natives.
27 APR. 2100. Date in ship, her crew are on next stage - oven 22 slid.

28 APR. 0530 hr. Arrived at hal 155, about 2 mile from river.

29 APR. 0630 hr. Morned & second on next stage - oven 24 slid.

29 APR. 0730 hr. Walk in and start on next stage - oven 24 slid.

DATE | EVENT
---|---
2 Dec | Information: M2X 9700, Agnew, B C W M, and M2X 56912, Agnew, HUNTER R M, had died at KAMBURIE HOSPITAL.
3 Dec | 0500 hr, Lt. Col. J. A. G. Douglas, C B A, had ordered the rear guard to KAMBURIE under Rear Admiral, Rear Admiral, Henderson, and Lake Nyo.
4 Dec | 0400 hr, Lt. Col. J. A. G. Douglas, C B A, had ordered the rear guard to KAMBURIE under Rear Admiral, Rear Admiral, Henderson, and Lake Nyo.
5 Dec | 0500 hr, Lt. Col. J. A. G. Douglas, C B A, had ordered the rear guard to KAMBURIE under Rear Admiral, Rear Admiral, Henderson, and Lake Nyo.
6 Dec | VX 3762, Agnew, T. B., died at KAMBURIE HOSPITAL following long illness.
7 Dec | 0600 hr, Lt. Col. J. A. G. Douglas, C B A, had ordered the rear guard to KAMBURIE under Rear Admiral, Rear Admiral, Henderson, and Lake Nyo.
8 Dec | VX 3762, Agnew, T. B., died at KAMBURIE HOSPITAL following long illness.
9 Dec | VX 2693, Agnew, O'Donoghue, P. C., died of dysentery, return.
10 Dec | VX 2693, Agnew, O'Donoghue, P. C., died of dysentery, return.
11 Dec | VX 2693, Agnew, O'Donoghue, P. C., died of dysentery, return.
12 Dec | VX 2693, Agnew, O'Donoghue, P. C., died of dysentery, return.
1. FEVER
   - Regard all fever of unknown origin (i.e., having excluded a severe skin infection with pus, tender glands, headache, diarrhea) as malaria and treat as such.
   - Use Quinine 0.75 mg/kg daily until fever has subsided for 2 successive nights.
   - If necessary, add 4.5 mg of quinine to the dose if no effect.
   - Note: Quinine is due to malaria, not to quinine; try chloroquine if quinine is ineffective.

2. DIARRHEA
   - Vomits stools: blood and mucus with a watery or frank diarrhea.
   - Frequent severe stools, like plain rice water: cholera.
   - Treatment of diarrhea is much the same: nil — beyond rest, 10 gms. dehydratate.
   - Note: Ordinary diarrhea (sometimes blood) may be a symptom of dysentery.

3. DYSENTERY
   - With blood + mucus: no fever — watch
   - With blood = mucus with fever: build up daily, 4 g., quinidine 1/2 g. q.d. (not 426 mg)
   - Qnt 3 g. if no improvement in 3 hours; s/3 every 2 hours. 2 g. when fever subsides.
   - Note: fluids + + + Rehydrate. Do not allow tongue to become dry.

4. CHOLERA
   - Purges, frequent rice water stools,
   - Vomits — cramps in abdomen, etc. — eventually available dehydration skin, no fever (except rectal)
   - Treatment: little can be done without IV. salt solution
   - Small quantities frequently of salt solution — e.g., 1 oz.
   - Dosage of medicine must be very large, 60 to 120 gms.
   - In absence of medical aid, the main thing to do is to prevent spread of epidemic.
   - Isolate individual.
   - Isolate contacts.
   - Use stools in covering floors or in hot water.
   - Boil all utensils.
   - With soap and water — e.g., check that roof does not go up in rice water chutney.

5. DIPHTHERIA
   - Recognized by yellowish-gray membrane on tonsils or pharyngeal area or soft palate.
   - Isolate. Rest 3 weeks.
   - Isolate immediate contacts.

6. BERI BERI
   - Cachexia (swelling) type — rest until swelling of legs subsides; provide protein meals.
   - Fat, mill, potatoes, rice, and rice flour
   - But make a mix with signs of beri beri, do heavy work.
   - For heart in is a similarly watery type cachexia in later stages.
   - Note: rapid may be occasioned by the first symptom of beri beri — probably commence with increasing difficulty of swallowing, then easy swallowing.
   - Cost of actually giving rice for early cases is very having as it reduces the difficulty of respiration and cachexia.
Beri Beri (Continued)

The need for a greater respiratory effort --- the continuous increased work of the heart.

Complete rest in bed in early stages.

Aerobic Paralysed Patients - rest. Suppleness for long period from muscle thus do not allow development of muscle spasms. Keep them continuously in one position by offering support. For instance, 2-3 minute intervals. The feet are paralysed for not allow the muscle which tend the foot down to keep it permanently bent down.

Aerobic fed up.

Point fed up.

Hair and nose, face, feet, hands, kidney, liver, heart, tongue, pain.

General Remarks on Treatment of prolonged cases.

At first 2 or 3 days have of quinine can be stopped. Then give quinine. After 1 or 2 days, however, the patient must be compelled to continue (some him to set) to gradually increase. This will apply particularly to African cases.

Typhus

Prolonged fever 7-14 days with long convalescence.

Pernicious does not respond to quinine.

There may be an "ear" (like the dark spot which terminates a varicose vein) on the leg or body of the side of the body (if with blood type)

The neck swells in extent - sometimes no real pernicious treatment at all. General nursing and feeding.
