

MINOR ACCIDENTS RESULTING IN PERMANENT DEFORMITIES.

- 801 - Coal dust in left eye resulting in poor vision, July 1945.  
 164 - Tip of middle finger right hand crushed between truck and airpipe resulting in amputation, July 1944.  
 755 - Fall of stone on middle finger left hand distant phalanx amputated, January 1945.  
 644 - Fall of stone on left wrist resulting in slight ankylosis of knuckle joint, January 10th 1945.  
 408 - Right ankle crushed by a truck resulting in traumatic abscess ankle still badly swollen and discharging, March 4th 1945.  
 666 - Fall of stone on left arm resulting in fracture of radius - not yet healed, Rib cracked, July 25th 1945.  
 572 - Fall of stone on left instep. Still painful and swollen especially on walking, June 1945.  
 78 - Blow of pick on right leg resulting in infection linear scar of about 4 inches. Painful when walking, October 1944.  
 549 - Fall of iron block on 4th right toe - ankylosed, April 1945  
 332 - Fall of roofing on spinal column in region of 8th and 10th the sacral vertebrae cannot bend properly - still swollen and painful 20 June '45.  
 359 - Fall of stone on right knee, resulting in fracture of patella operation showed no improvement - cannot stand or walk without support 3 April 1945.  
 890 - Left hand caught between dog and chain - middle and index fingers injured ankylosed, May 1945.  
 882 - Fall of roofing on spinal column resulting in fracture of 8th thoracic vertebrae, Now right lordosis cannot remain stooped, March 19th 1945.  
 445 - Fall of rock on right shin resulting in chronic infection, May 1945.  
 42 - Two middle fingers of left hand crushed by wheels of truck resulting in malformation, February 19th 1944.  
 313 - While pushing truck rock fell on right leg fracturing tibia fibula. Three centimeters shortening resulting in a limp, November 26th 1944.  
 862 - Fall of roofing on 8th and 9th thoracic vertebrae resulting in right lordosis, December 1944.  
 681 - Fall of stone on left leg resulting in fracture of tibia with shortening, limping, April 1945.  
 240 - Fall of iron on right index finger resulting in complete ankylosis.  
 368 - Fall of stone fourth left finger resulting in malformation, October 12th 1944.  
 45 - Little finger right hand caught between chain and wheel resulting in one phalanx missing and ankylosis of remaining joints, May 27th 1945.  
 370 - Fracture of ulna right by being crushed against truck, limited movement in wrist, October 3rd 1945.  
 780 - Fall of stone on ribs, lower right chest still very painful, June 1945.  
 52 - Piece of wood fell on left big toe resulting in ankylosis of left toe, December 12th 1944.  
 519 - Right leg crushed resulting in chronic infection, December 20th 1944.  
 415 - Midfinger left hand crushed between truck and iron bar resulting in fracture of distal phalanx with internal deviation and tip of 4th finger amputated, August 1945.  
 503 - Right leg crushed between two trucks resulting in tendon and muscular infection, Right footdrop. Still not healed, July 1945.  
 411 - Tip index finger right hand crushed between rail and truck resulting in loss of sensation, September 1945.  
 307 - Fall in mine. Was lifting coal, injured midfinger right hand resulting in infection causing mal-formed ankylosis, March 1945.  
 423 - Right foot crushed between truck resulting in infective ankylosis of second, third and fourth right toes, November 1944.  
 843 - Fall of stone on second toe resulting in hammer toe, February 1945.  
 844 - Fall of stone on left ankle resulting in permanent painful swelling, January 17th 1945.  
 121 - Fall of wooden leg on middle and fourth fingers left hand causing fracture of second phalanx of middle finger. Joint slight ankylosed, December 15th 1945.

- 460 - Fall of iron rail on index finger right hand resulting in amputation of distal phalanx, December 16th 1943.
- 754 - Rock out of wall fell on right ankle resulting in swelling and occasional limp. May 15th 1945.
- 39 - Thigh right injured between two trucks followed by a haematoma of thigh and leg. Then returned to mine, but soon afterwards developed an abscess resulting amputation of leg right above knee. June 1943.
- 209 - Fall of stone on left fore finger resulting in amputation of second and third phalanges, June 4th 1944.
- 417 - Right hand caught between steelwire and pulley resulting in amputation of right palm (half of) and four fingers, November 1943.
- 478 - Fall of iron bar on left heel. Difficult to wear boots as it causes swelling and pain, Difficult. His trade as steeple-jack and bricklayer is adversely affected. July 1944.
- 846 - Fall of roofing on left thigh and resulting in fracture of left humera. Permanent limp and swollen thigh and knee always present, July 26th, 1944.
- 811 - Fall of iron rail on left instep resulting in flatfoot, Cannot stand on toes, October 1944.
- 287 - Fall of iron on spinal column resulting in traumatic arthritis September 10th 1943.
- 778 - Fall of wooden prop on left wrist resulting in fracture of radius Fragments not yet united, June 13th 1945.
- 1502 - Fall of stone right knee. Still swollen, Cannot bend properly. Traumatic bursitis, July 1945.
- 1531 - Right foot crushed between two trucks. Right instep injured, swollen, difficult and painful when walking, June 1945.
- 534 - Left leg caught between steps and moving train, Leg drags, Linear scar of seven inches still septic. January 4th 1945.
- 339 - Fall of foot on right ankle. Difficult to walk up or down slopes. November 23rd 1943.
- 559 - Left thigh crushed between truck and winch above knee resulting in fracture femur, Permanent limp and swelling, January 13th 1945.
- 96 - Fall of stone on right leg causing fracture of tibia tibiule. Ankle now painful when walking due to shortening of leg. June 1943.
- 133 - Left knee crushed between truck and wooden prop. Not yet healed. July 15th 1945.
- 249 - Cog wheel caught right index finger and mid finger right hand resulting in loss of index finger and mal formed ankylosis of mid finger. April 24th 1945.
- 123 - Fall in mine with resulting injura of right instep. Still swollen and painful. November 1944.
- 622 - Injury to right ankle by premature discharge of dynamite resulting in chronic infection. August 26th 1944.
- 740 - Fall of stone on right index finger whilst pushing truck. Grossly malformed ankylosis, November 24th 1944.
- 622 - Fall of wall on left ankle. Still painful, April 10th 1945.
- 421 - Fall of roofing on right leg resulting in immediate amputation of leg above knee. Not yet healed. July 1945.
- 424 - Fall of roofing on whole body resulting in fracture of right femur left clavicle, right humerus and left elcranon, not yet healed. July 1945.
- 1261 - Crushed left shoulder and chest between two trucks resulting in fracture of left second rib and left shoulder. Not yet cured. July 1945.
- 1224 - Caught by an axe on thigh above left knee. Severly infected. Multiple abscesses around knee joint which is also possibly affected. At present condition very poor and cachetic. Dangerously ill, July 1945.
- 463 - Fall of rock on left shin resulting in linear superficial fracture of tibia. Not yet cured. July 1945.
- 362 - Rock on head. July 10th 1943.

- 662 - Forefinger right crushed between two trucks, not yet healed July 28 1945
- 728 - Truck ran over left foot, healed. February 26 1945.
- 85 - Whilst working wall collapsed water flowed in tunnel carrying him away. Severely injured all over the body. Right knee still somewhat stiff and painful. June 26, 1945.
- 712 - Whilst digging coal rock fell on left instep causing foot abscess. May 16, 1945.
- 828 - Whilst placing strut coal fell on right ankle causing wound. Not yet healed. July 10 1945.
- 234 - Whilst digging coal right on instep abscess. Healed. Dec. 1, 1945.
- 698 - Whilst digging coal rock on left arm causing wound. Healed. Rock on left side ankle joint. Haematoma. Still somewhat stiff and painful. June 14, 1945.
- 25 - Whilst digging coal wall came down. water flowed in tunnel, dragged him 100 yards. Covered with wounds. Big wound medic side right thigh. Paralysis of anterior thigh muscles right. June 26, 1945.
- 801 - Whilst picking wall piece of stone hit left eye. Slight diminished. June 5, 1945.
- 642 - Whilst standing in front of a truck the truck was pulled forward without warning, bruised left leg 15 June 1945.
- 780 - Whilst picking wall collapsed rock fell against right side of thorax. Pole fell against left eye causing wound below same eye. June 15, 1945
- 587 - Whilst picking coal fell on left thigh causing fracture just above knee June 30, 1944.
- 220 - Fainting in the mine felt down and caught by a passing truck which crushed third toe of left leg. Jan. 8 1944
- 108 - Whilst placing pole rock fell down and crushed right thumb causing thumb stiffness of second interphalanx joint. Feb. 1945.
- 177 - Whilst working in the mine wall collapsed water flowed carried him about 100 yards away, many wounds. Wound at right knee not yet healed. Right knee still swollen and stiff, June 26 1945.
- 646 - Working with pick rock fell on left hand causing haematoma and abscess Healed, May 7 1945.
- 736 - Pick of other man in the left hip working in air raid shelter in camp hit him. June 10 1945.
- 81 - Pushing trucks hurts right knee against truck which caused abscess. Healed Nov. 10 1944.
- 688 - Crushed right little finger between stone and pole. Fracture of 2nd phalanx stiff and joint, March 1945.
- 389 - Crushed between two trucks Healed July 1945 (15)
- 388 - Crushed between two trucks Healed, 10 August 1944.
- 299 - Rock on back fell down with breast on drain Healed No 7 1943
- 295 - Rock fell on back, healed Sept. 17 1943
- 12 - Crushed between two trucks breast healed Nov 7 1943
- 390 - Pole against left leg Osteomyelitis fibulae Not yet healed, April 10 1945.
- 75 - Crushed between two trucks hipbone fracture not yet healed Aug 12 45
- 219 - Kipped and fell with breast against pole healing Dec 8 1944
- 350 - Truck ran over toes of right foot June 4 1945
- 35 - Whilst carrying drill fell down, crushed right middle finger and the floor Nov. 7 1944.
- 374 - Whilst riding in truck roof came down on his back still painful, April 18 1945
- 136 - Slipped and fell whilst carrying poles, crushed left little finger between poles and floor June 15 1945.
- 251 - Crushed right thumb between two rails heeled Dec. 24 1943
- 266 - Broke left tibia and fibula by jumping off truck Sept 1 1943
- 173 - Whilst pushing truck crushed right little finger between truck and pole Cannot abduct same finger. Sept 11 1944
- 47 - Whilst drilling rock fell out of roof on right arm breaking upper arm Limited bending May 5 1944
- 294 - Whilst strutting rock out of roof fell on his back No after effects Jan 10 1945.

20-7  
L-47

- 236 - Crushed between trucks and pole; fracture still bit painful Feb 6 44
- 388 - Pushing trucks another truck got him in the back and hurt him at left foot May 15 1944
- 490 - Train started before he was in it dragging him along Big wound right leg Still stiffness right ankle Feb 15 1944
- 530 - Came in down rushing truck Injured at head Unconscious Feb 10 1944 Rock on left knee Stiff July 31 1945
- 146 - Sitting in truck roof came down on left leg Abscess chronic Dec 6 1944
- 91 - Rock on right instep abscess Nov 10 1944
- 9 - Falling steelwire wire pierced right thumb stiffness of thumb May 15 1944
- 132 - Fell through asbestos roof Contusion of vertebrae column incidentally still painful back July 12 1944
- 735 - Leaning with left hand on truck rock fell on his head out of wall, 3rd phalanx lost Feb 6 1945
- 225 - Whilst filling truck coal hit him against right leg just below knee Abscess May 10 1945
- 364 - Whilst rigging hole fore pole part of wall fell on left leg Dec 18 1944
- 430 - Whilst strutting roof came down on his back July 10 1945
- 130 - Crushed between pole and truck Still painful left thigh May 10 1945
- 28 - Rock fell on third and fourth toe of left leg Not yet healed Aug 3 1945
- 1331 - Whilst working in mine rock fell on right instep Still swollen and painful July 11 1945
- 775 - Whilst working rock out of roof fell on his back Still stiff and painful June 8 1945
- 153 - Crushed between two trucks left heel healed Oct 22 1945 Pole fell on his back. Feb 10 1945
