OFFICE OF THE  
JUDGE ADVOCATE  
AT  
HOLLANDIA

19095/R.

WARRANT.

HEARING OF EVIDENCE

This day, Wednesday, 18 June 1947, appeared before me:  
Gerrit Gelijn JOCHEMS, special constable, charged with the prosecution  
of war criminals and collaborators at New Guinea, a certain person, when  
asked, stated to be:

Name: Johan Tomasowa  
Age: 28 years old  
Profession: Amb. fus. ASN: 36677, detached to School Training Paratroopers  
Residence: Hollandia.

Are you willing to take the oath to state the whole truth and nothing but  
the truth?

Yes.

Then the witness takes the oath according to his religious beliefs to state  
the whole truth and nothing but the truth.

I, Summoner, then read to the witness his statement, made on 9 January 1947  
to the Judge Advocate with the Temporary Court Martial in Hollandia, Mr.  
J.R.F. Apontowil, after which I ask him the question: Do you admit having  
given that statement?

Yes.

Said statement is not quite clear: Are you willing to give me a more de-  
tailed statement?

Yes.

Where were you at the outbreak of the war between the Netherlands and  
Japan?

On 8 December 1941, I was detailed as Amboneze private in a Detach-  
ment of the R.N.I.A. at Kendari (Celebes). On 24 January 1942, the Japanese  
invaded Kendari from sea and I was taken prisoner of war in the morning of  
that day and locked up in the prison of Kendari. After I had continuously  
been interned there till 29 April 1942, I was let free by the Japanese and  
allowed to return to my house at Kendari. About fourteen days afterwards,  
I was arrested by some Japanese members of the Tokketai and locked up in  
the building in which the Tokketai of Kendari was established. I namely was  
in the possession of a Dutch flag, which I had hidden in a case in my house  
at Kendari, which had been made known to the Japanese and which fact had  
been made punishable by them. By a search of my house afterwards, said  
flag was found and I was arrested and locked up in the building in which  
the Tokketai of Kendari was established.

After having been locked up there continuously for about three months,  
I was sentenced by a Japanese court to twenty years imprisonment and kept  
locked up in the building in which the Tokketai of Kendari was established.  
After having continuously been locked up there till the month of July 1945,  
I do not know the exact date anymore, I succeeded in escaping from the said  
building and I kept hiding in the woods near Kendari till the arrival of the  
Australians.

DECLASSIFIED

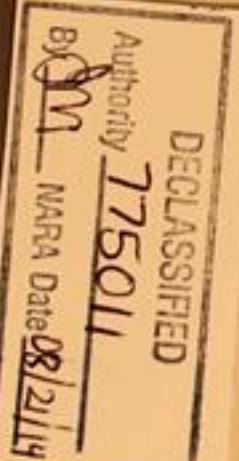

NEI-151

Did you see the Japanese committing any crime against Indonesians and/or Europeans during you were kept prisoners by the Japs in the prison at Kendari, so from 24 January 1942 till 29 April 1942?

Yes, about a week before the invasion of the Japanese at Kendari, an American war-ship entered the harbor of Kendari and remained there till the day of the invasion, so till 24 January 1942. I knew that said war-ship was an American ship, because it had the American flag astern, as I saw. On 24 January 1942 at about half past five in the morning said war-ship left the harbor of Kendari, as I saw. About half an hour afterwards, I heard loud roaring of guns from the direction in which the war-ship had left. Thus I concluded, that said war-ship had encountered the enemy, so Japan. Shortly afterwards the Japanese landing troops invaded Kendari, which was taken by them that same morning and by which I was taken prisoner of war by the Japanese and interned by them in the prison at Kendari. Shortly after I had been locked up in said prison I saw about 36 white men, who each were dressed only in a pair of drawers, brought in said prison under guard of a number to me unknown Japanese military personnel, and I heard that those 36 men whose names remained unknown to me, were the survivors of the crew of the American war-ship which had sailed from the harbor of Kendari that morning, after which it had been sunk by the Japanese.-----

After said prisoners had been locked up in said prison for some time, I saw that the Japanese "Teitjo", named NAKAMURA, who became known to me later, gave order to some to me unknown Japanese to bind the Americans the hands on their respective backs, which happened as I saw. After that they were heard in groups by said NAKAMURA in a small building, which was situated at a distance of about thirty meters from said prison. After they had been questioned, their hands were untied, as I saw. During those Americans were heard by NAKAMURA I did not see or notice in some way that they were ill-treated. At about four o'clock in the afternoon of that same day, so on 24 January 1942, all Americans had to line up by order of NAKAMURA, as I saw and heard, after which Nakamura read a number of names from a piece of paper, which names apparently referred to those Americans, anyhow, I saw and heard that after each name called by NAKAMURA an American fell out and stood apart of the group. After NAKAMURA had thus called a number of seventeen names, after which seventeen Americans had fallen out, I saw that by order of Nakamura the last mentioned Americans both hands were tied on their respective backs, after which they were led under guard of to me unknown Japanese military personnel in a freighttruck standing in front of the prison. Then I and another eleven prisoners got the order to get in a second truck with pickaxes and shovels. I then saw that the to me known Japanese FURKAWA, NAKAMURA, Fudjimoto-Gotjo, Hamagami-Gotjo and Kawamura-Gotjo got in an already waiting sedan, after which the convoy existing of the above mentioned three cars, started in the direction of Amoito (Kendari 2). I know for sure that said Furkawa was the highest in rank on that occasion, but his proper rank is not known to me. Arrived at Amoito I and the eleven other prisoners had to dig three pits by direction of NAKAMURA, each pit about two meters long, one and a half meter broad and one meter deep, which we did. After completing said three pits I saw that all Americans were blindfolded by order of Nakamura and I saw that by direction of NAKAMURA-FUDJIMOTO, HAMAGAMI and KAWAMURA each went and stood near one of the pits with a drawn sword, upon which the Americans one by one were beheaded by direction of NAKAMURA. I did not see that FURKAWA who was the highest in rank of the Japanese on that occasion, took any measures to stop or prevent that execution. After all seventeen Americans had been beheaded by Fudjimoto, Hamagami and Kawamura, after which their bodies had been thrown in the three pits, we got order from NAKAMURA to fill up the pits, which we did. Then we were taken back to prison. Why those seventeen Americans have been killed by the Japs, remained unknown to me and I do not know whether or not they have been condemned to death by a Japanese court.-----

The surviving 19 Americans remained locked up during about fourteen days in said prison after which they all were taken away by to me unknown Japs and, as I heard from rumors, were employed in the nicklemines at PAMALA (CELEBES). After that I never heard or saw anything of them. On or about 28 May 1942 during I was kept prisoner by the Japs in the building in which the Tokketai at Kendari was established, people were brought into

said building of the Tokketai by to me unknown Japanese military personnel, as I saw. Said group of people consisted of ten white men, four Malayans and three Chinese. I heard from one of those Malayans whose name was Mardjono, that he and aforementioned group of sixteen persons had belonged to the crew of an English merchantman, which had been sunk by the Japs some weeks before in the neighborhood of Tjilatjap, after which they had been picked up by a Japanese ship which took them to Kendari, where they were locked up in the building of the Tokketai. About a week thereafter, aforementioned seventeen persons were taken under guard of to me unknown Japanese military personnel to a truck standing before the building of the Tokketai, by order of said NAKAMURA, who was present personally and gave directions. I and a number of other prisoners were also taken with pickaxes and shovels to another truck, upon which the mentioned two trucks left in the direction of AMAITO. I saw that in a sedan the to me known Japanese NAKAMURA, ABE who belonged to the Tokketai at Kendari, and the head of the Tokketai of Kendari, whose name is not known to me, followed us.

Arrived at Amaito we had to make two pits by direction of NAKAMURA at a distance of about thirty meters from the place where the seventeen Americans had been buried. Each pit was about two meters long, one and a half meter broad and one meter deep. Then I saw that all seventeen persons were blindfolded, after which those seventeen persons were beheaded by direction of NAKAMURA by two Japs whose names are unknown to me, after which their bodies were thrown in said two pits, after which those pits were filled up by us by order of NAKAMURA. Then we were taken back to the building of the Tokketai at Kendari.

I do not know the reason why those seventeen persons were beheaded by the Japs and I do not also know whether or not they have been condemned to death by a Japanese court.

Then the witness gives a statement completely similar to the statement he gave on 20 and 21 March to Mr. Thomas C. Fisher, Prosecutor, Legal Section GHQ, SCAP, Manila Branch, upon which I, Summoner, ask the witness:

Which of the statements is now the correct one, that one you made to Mr. J.R.F. Aponteweil or the one you made to Mr. Thomas C. FISHER and me?

The statement I made to Mr. Thomas C. FISHER and you is the only correct one. In the statement I made to Mr. Aponteweil, I mixed several facts and so I made an incorrect statement. So I kindly ask you to undo that statement.

Are more crimes against allied pilots and/or sailors known to you?

No.

After reading and showing his given statement, the witness declares to hold to it, as proof thereof he signs this statement with me, Summoner,

The Witness

The Summoner,

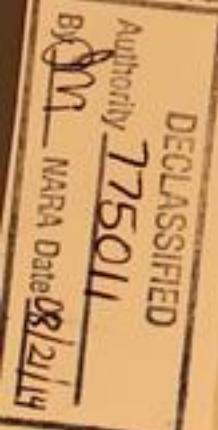

Sgd: G. G. Jochems.

Note of the summoner :

The witness gives me the impression that he is a little bit confused by the many hearings about the matter, so that it is possible that he, through the loss of a correct notion of the facts, recalls his formerly given statement.

PROCES-VERBAAL.

GETUIGEVERHOOR.

Op heden, Woensdag den 18 Juni 1947, verscheen voor mij, Gerrit Gelin JOCHEMS, onbezoldigd politieambtenaar, belast met de nasporing van oorlogsmisdadigers en collaborateurs te Nieuw-Guinea, een persoon, die op afvraag zegt te zijn:

Naam: Johan TOMASOWA;  
leeftijd 28 jaar oud;  
beroep Amb.fus.algstnr/56677 gedetacheerd School Opleiding  
woon- of verblijfplaats: Hollandia, Parachutisten;

Zijt gij bereid de eed af te leggen,  
dat gij de gehele waarheid en niets  
dan de waarheid zult zeggen?

Ja.

Hierop legt getuige op de wijze zijner godsdienstige gezindheid  
de eed af dat hij de gehele waarheid en niets dan de waarheid zal  
zeggen.

Ik, verhalant, lees daarop getuige zijn verklaring,  
op 9 Januari 1947 ten overstaan van den Auditeur  
Militair bij de Temporaire Krijgsraad te Hollandia  
Mr. J.R.F. Aponteweil, aangelegd, voor, waarna ik hem de  
vraag stel: erkent gij die verklaring te hebben af-  
gelegd?

Ja.

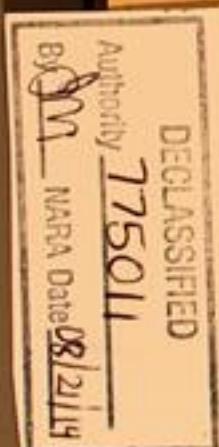

Gemeide verklaring is enigszins  
onduidelijk: "Zijt gij bereid ten  
overstaan van mij een meer uitvoe-  
rigere verklaring af te leggen?

Ja.

Waar bevondt gij U tijdens het uit-  
breken van de oorlog tussen Nederland  
en Japan?

Op 8 December 1941, was ik als Ambonees  
fuselier geplaatst bij een Detachement  
van het K.N.I.L. te Kendari (Celebes).

Op 24 Januari 1942, vielen de Japanners  
vanuit zee Kendari binnen en werd ik  
in de voormiddag van dien dag, krijgsge-  
vangene gemaakt en in de gevangenis van  
Kendari opgesloten. Nadat ik onaangebroken  
tot aan 29 April 1942 daarin geinterneerd was  
geweest, werd ik door de Japanners vrijgelaten, en  
mocht ik naar mijn woning te Kendari terugkeren. Onge-  
veertien dagen daaraanvolgend werd ik door enige Japanse  
leden van de Tokketai gearresteerd en opgesloten in het ge-  
bouw waarin de Tokketai van Kendari gevvestigd was. Ik was name-  
lijk in het bezit van een Nederlandse vlag, die ik in een kist  
in mijn woning te Kendari verborgen had, hetgeen aan de Japan-  
ners was bekendgeraakt en welk feit door hun strafbaar was ge-  
steld. Bij een daarop gevvolgde huiszoeking in mijn woning werd  
gemelde vlag gevonden en werd ik gearresteerd en in het gebouw  
waarin de Tokketai te Kendari gevvestigd was, opgesloten.

Na ongeveer drie maanden onafgebroken daarin te zijn opgesloten geweest, werd ik door een Japans rechtscollege tot twintig jaren gevangenisstraf veroordeeld en opgesloten gehouden in het gebouw waarin de Tokketai te Kendari gevestigd was. Nadat ik onafgebroken aldaar tot aan de maand Juli 1945, de juiste datum weet ik niet meer, opgesloten ben geweest, slaagde ik erin uit gemeld gebouw te ontvluchten en heb ik mij tot aan de komst van de Australiërs schuilgehouden in de bossen bij Kendari.

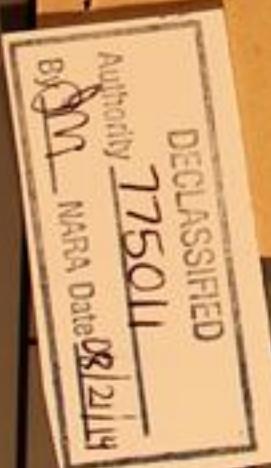

Hebt gij, tijdens gij in de gevangenis te Kendari door de Japs gevangen werd gehouden, dus van 24 Januari 1942 tot aan 29 April 1942, enig misdrijf door Japanners tegen Indiërs en Europeanen zien bedrijven?

Ja, ongeveer een week voor de inval van de Japanners te Kendari, kwam een Amerikaans oorlogsschip de haven van Kendari binnenlopen en bleef daar liggen tot op de dag van de inval, dus tot 24 Januari 1942. Ik wist dat gemeld oorlogsschip een Amerikaans schip was, omdat het de Amerikaanse vlag van de achtersteven had wapperen, zoals ik heb gezien. Den 24 Januari 1942, te om-

streeks half zes uur in de voormiddag verliet gemeld oorlogsschip de haven van Kendari, zoals ik zag. Ongeveer een half uur daaraanvolgend hoorde ik luid kanongebulder uit de richting, waarin het oorlogsschip was vertrokken. Daaruit concludeerde ik, dat gemeld oorlogsschip met de vijand, dus Japan, was slaags geraakt. Kort daarop vielen de Japanse landingstroepen Kendari binnen, wat door hen diezelfden morgen veroverd werd en waarbij ik door de Japaners krijgsgevangene werd gemaakt en door hen werd geinterneerd in de gevangenis te Kendari. Kort nadat ik in gemelde gevangenis was opgesloten geworden, zag ik ongeveer 56 blanke mannen, die ieder slechts gekleed waren in een onderbroek onder bewaking van een aantal mij onbekende Japanse militairen gemelde gevangenis binnenbrengen en vernam ik dat die 56 mannen, vier namen mij allen onbekend gebleven zijn, de overlevenden waren van de bemanning van het Amerikaanse oorlogsschip dat dien morgen de haven van Kendari was uitgevaren, waarna het door de Japaners tot zinken was gebracht.

Nadat gemelde gevangenen enige tijd in gemelde gevangenis waren opgesloten geweest, zag ik, dat de mij later bekend geworden Japanse "Teitjo", NAKAMURA genaamd, aan enige mij onbekende Japaners opdracht gaf om de Amerikaanse gevangenen hun respectievelijke handen op hun respectieve lijke te binden, hetgeen gebeurde, zoals ik zag, waarna zij in groepjes door NAKAMURA voornoemd werden verhoord in een gebouwtje, dat zich op een afstand van ongeveer dertig meter van gemelde gevangenis bevond. Nadat zij allen verhoord waren werden hunne handen weer losgemaakt zoals ik zag. Gedurende die Amerikanen door NAKAMURA verhoord werden heb ik niet gezien of op een andere wijze bemerkt, dat zij mishandeld werden. Te omstreeks vier uur in de namiddag van dienzelfden dag, dus op den 24 Januari 1942, moesten alle Amerikanen op last van NAKAMURA aantreden zoals ik zag en hoorde, waarop Nakamura van een stuk pa-

--- 3 ---

pieren aantal namen voorlas, die kwaarblijkelijk op die Amerikanen betrekking hadden, althans zag en hoorde ik, dat na elke naam die door NAKAMURA afgeroepen werd een Amerikaan uittrad, en opzij van de groep ging staan. Nadat Nakamura aldus een zeventiental namen had afgeroepen, waarna zeventien Amerikanen waren uitgetreden, zag ik dat op last van Nakamura laats bedoelde Amerikanen hun beide handen op hun respectievelijke ruggen gebonden werden, waarna zij onder bewaking van mij onbekende japanse militairen in een voor de gevangenis staande vrachtauto werden geleid. Daarna kregen ik en nog elf anderen gevangen opdracht om met patjols en schoppen in een tweede vrachtauto te stappen. Ik zag daarop dat de mij bekende Japanners FURKAWA, NAKAMURA, Fudjimoto-Gotjo, Hamagami-Gotjo en Kawamura-Gotjo in een eveneens gereedstaande luxe-auto stappen, waarna het transport bestaande uit voormelde drie motorvoertuigen wegreed in de richting naar Amaito (Kendari 2). Ik weet zeker dat FURKAWA voornoemd de hoogste in rang was bij die gelegenheid, doch zijn juiste rang is mij onbekend. --- Te Amaito aangekomen, moesten ik en de elf anderen gevangen op aanwijzing van NAKAMURA drie kuilen graven, iedere kuil ongeveer twee meter lang, anderhalve meter breed en een meter diep, hetgeen wij deden. Nadat vermelde drie kuilen waren gereed gekomen, zag ik dat op last van Nakamura alle Amerikanen geblinddoekt werden en zag ik dat op aanwijzing van NAKAMURA FUDJIMOTO, HAMAGAMI en KAWAMURA ieder met een getrokken zwaard bij een der kuilen ging staan, waarop de Amerikanen een voor een op aanwijzing van NAKAMURA werden onthoofd. Ik heb niet gezien, dat FURKAWA die de hoogste in rang van de Japanners bij die gelegenheid was, enige maatregel nam, om die executie te doen stoppen of te voorkomen. Nadat alle zeventien Amerikanen door Fudjimoto, Hamagami en Kawamura waren onthoofd, waarna hun lichamen in de drie kuilen waren gegooiïï, kregen wij opdracht van NAKAMURA om de kuilen dicht te gooien hetgeen wij deden. Daarna werden wij naar de gevangenis teruggebracht. Waarom die zeventien Amerikanen door de Japs gedood zijn geworden is mij onbekend gebleven en weet ik niet of zij al dan niet door een Japans rechtscollege zijn ter dood veroordeeld. ---

De overlevende 19 Amerikanen bleven ongeveer veertien dagen in gemelde gevangenis opgesloten, waarna zij allen door mij onbekende Japs werden weggehaald en naar ik bij geruchte vernam, tewerkgesteld in de nikkelmijnen te PAMALA (CELEBES). Nadien heb ik nooit meer iets van hen gehoord of gezien. ---

Op of omstreeks 28 Mei 1942, tijdens ik in het gebouw waarin de Tokketai te Kendari gevestigd was, door de Japs werd gevangengehouden, werden zoals ik zag, door mij onbekende Japanse militairen ~~xxxxxx~~ personen ~~xx~~ gemeld gebouw van de Tokketai binnengebracht. Gemelde groep personen bestond uit tien blanke mannen, vier maleiers en drie chinezen. Ik vernam van een dier maleiers die Mardjono was genaamd dat hij en vorenbedoelde groep van zeventien personen deel hadden uitgemaakt van den bemanning van een Engels koopvaardschip, dat door de Japanners enige weken tevoren in de buurt van Tjilatjap tot zinken was gebracht, waarna zij waren opgepikt door een Japans schip dat hen naar Kendari had gebracht, alwaar zij in het gebouw van de Tokketai waren opgesloten. Ongeveer een week daar

-- 4 --

daaraan volgend, werden voormelde zeventien personen, op last van NAKAMURA voornoemd, die persoonlijk aanwezig was en aanwijzingen gaf, onder bewaking van mij onbekende Japanse militairen in een voor het gebouw van de Tokketai gereedstaande vrachtauto geleid. Ik en een aantal andere gevangen werden eveneens met patjols en schooppen in een andere vrachtauto gebracht, waarop gemelde twee vrachtauto's vertrokken in de richting naar AMAITO. Ik zag, dat in een luxe auto de mij bekende Japanners NAKAMURA, ABE, die tot de Tokketai te Kendari behoorde, en het mij van naam onbekende hoofd van de Tokketai van Kendari, ons volgden. Te Amaito aangekomen moesten wij op aanwijzing van NAKAMURA op een afstand van ongeveer dertig meter verwijderd van de plaats waar de zeventien Amerikanen begraven waren, twee kuilen maken, die ieder respectievelijk ongeveer lang tweebreed anderhalve- en diep een meter waren, netgeen wij deden. Daarna zag ik dat alle zeventien personen geblinddoekt werden, waarna die zeventien personen op aanwijzing van NAKAMURA door twee mij van naam onbekende japs werden onthoofd, waarna hun lichamen in gemelde twee kuilen werden gegooied, waarna die kuilen door ons op last van NAKAMURA werden gedicht. Daarna werden wij weer naar het gebouw van de Tokketai te Kendari teruggebracht. Ik weet niet de reden waarom die zeventien personen door de Japs werden onthoofd en weet ik ook niet of zij al dan niet door een Japans rechtscollege ter dood zijn veroordeeld.

Daarop legt getuige een verklaring af, geheel gelijkluidend aan de verklaringen die hij op 20-en 21 Maart ten overstaan van Mr. Thomas C. FISHER, Prosecutor, Legal Section GHQ, SCAP, Manilla Branch had afgelegd, waarop ik, verbalisant, getuige de vraag stel:

Welke van de verklaringen is nu de juiste, die gij ten overstaan van Mr. J. R. F. Apontoweil, ~~of~~, of die gij ten overstaan van Mr. Thomas C. FISHER en mij hebt afgelegd?

*LTC die voorhalogen 7/7/45.*

Zijn U nog meer misdrijven ~~nakura~~ tegen Geallieerden piloten en of zeelieden bekend?

De verklaring die ik ten overstaan van Mr. Thomas C. FISHER en U heb afgelegd ~~is~~ ~~juist~~ is de enige juiste. In de verklaring die ik ten overstaan van Mr. Apontoweil heb afgelegd, heb ik de verschillende feiten door elkaar gehaald en heb ik dus een onnauwkeurige verklaring afgelegd. Ik verzoek U dus beleefd, die verklaring ongedaan te maken.

Nee.

Na voorlezing en voorhouding verklaart getuige te blijven volharden bij zijn afgelegde verklaring, ten bewijze waarvan hij deze verklaring met mij, verbalisant ondertekend.

Op heden, Donderdag 9 Januari 1900 zevenenveertig, scheen voor mij, Mr.J.R.F.Aponteweil, Auditeur-Militair bij den Tairen Krijgsraad te Hollandia, naar aanleiding van zijn rapport November 1946, te mijnen kantore de mij onbekende persoon van:

1. Waar waart gij bij de komst der Japanners en waar hebt gij alzoo tijdens de Japansche bezetting gezeten?

1. In 1941 werd ik als militair geplaatst bij het Detachement te Kendari (Celebes); waar ik nog was toen op 24 Januari 1942 de Japanners er binnen trokken. Ik werd tot 29 April 1942 geinterneerd, daarna vrijgelaten om vervolgens in Augustus 1942 weer voor 100 dagen te worden vastgezet. Na aanloop van deze termijn, werd ik naar aanleiding van een voorval met de Nederlandse vlag, wederom gearresteerd en tot 20 jaar gevangenisstraf veroordeeld. Omstreeks Juli 1945 werden mijn kameraden en ik ter dood veroordeeld. Ik slaagde er echter in tijdig uit de boei te ontsnappen en daardoor het leven te behouden, aangezien de anderen onthoofd werden. Zij, die ook ontvluchten konden, vonden naar ik vernomen heb, allen den dood in den strijd tegen de extremisten.

2. Wat kunt gij mij vertellen uit eigen aanschouwing van de misdrijven door de Japanners op Europeanen en Indonesiers gepleegd?

2. Op denzelfden dag van onze capitulatie, dus op 24 Januari 1942 werd omstreeks 7.30 des morgens tusschen Kendari en Boeton, dicht bij het eiland Wawoni een Amerikaansch schip tot zinken gebracht. De nog in leven zijnde Amerikaansche bemanning van ca.36 man werd gevangen genomen door de Jap, vervolgens werden de handen op de rug gebonden en zoo moest het groepje voor onderzoek naar het TOKEITAI-kantoor, waar zij werden ondervraagd door de Japansche tolk OKOEI. Omstreeks 4 uur des namiddags werden ongeveer 17 personen onder toezicht van HAMAGAMI (Gotjo), KAWAMURA (Gotjo), FUDJIMOTO (Gotjo) naar kampong AMAITO geleid, alwaar zij gedwongen werden graven te delven. Toen zij hiermede gereed waren, moesten zij aan de rand van het door hun persoonlijk gedolven graf knielen; zij werden vervolgens geblinddoekt, waarna de Japanner SJOHEISO hun met een Japansch zwaard, het hoofd van de romp sloeg. Eenige mijner kameraden en ik zelf hebben toen de graven moeten dichtgooien. Zooals later bleek, moet steeds een groep de executie bijwonen, om na voltrekking van het vonnis de graven te dichten.

De namen der slachtoffers zijn mij niet bekend, de naam van het tot zinken gebracht schip ben ik niet te weten kunnen komen, meerdere bijzonderheden over de schuldige Japanners kan ik niet verstrekken, terwijl om de onder antwoord L. gemelde redenen ik geen getuigen kan noemen, die dit gebeuren kunnen bevestigen.-----

Omstreeks het einde van Mei 1942 werd een Amerikaansch transportschip nabij Tjilstjap tot zinken gebracht. 17 Personen van de bemanning t.w. drie Chinezen en 14 Amerikanen werden gevangen genomen en per motorboot naar Kendari overgebracht, waar zij op 28 Mei 1942 arriveerden. Zij werden onmiddellijk gebonden en de Maandag daarop naar Kampong AMAITO gebracht, waar zij des middags om vier uur door den Japanner ABE (Heisjo) van de TOKEITAI werden onthoofd. Het verhaal der gevangenneming werd mij door een der Chinezen verteld, terwijl wat betreft de executie zelve ik als opgenomen in de meergemelde ploeg van "gravendichters" hierbij tegenwoordig had moeten zijn. Ook nu weer geen namen der slachtoffers, geen nadere bijzonderheden over de Jap.ABE en geen getuigen.-----

Op 17 Juni 1944 om circa 13 uur tijdens een geallieerde luchtaanval op KENDARI werd een Amerikaansch toestel neergeschoten. VIER personen werden gevangen genomen en naar een kampong in de buurt van KENDARI, genaamd MANDONGA gebracht, waar zij door den Japanner FOEROEJAMA (hij had een goud streep, zoals van een Majoor KNIL), met het zwaard werden onthoofd.

Namen der Amerikaansche slachtoffers zijn mij niet bekend, terwijl geen levende getuigen bij mijn weten zijn te noemen.

Een Amerikaansche vliegtuig stortte op 19 Juli 1944 in onze buurt neer. Enige kampongliden van Konda (Kendari) namen een Officier gevangen, die zij aan den Japanner JOKOJAMA uitleverden. Deze TOKEITAI man bracht de Officier naar Kampong PEWATOE (Kendari), waar hij hem onthoofde. Welke bewoners van Konda aan de uitlevering hebben medewerkt kan ik niet zeggen.

In November 1944 werd een Amerikaansch vliegtuig boven KENDARI neergeschoten. De wrakstukken kwamen in de buurt van Kampong SALABANKA terecht, waar door de bevolking de 9 overlevenden gevangen werden genomen en aan de Japanse autoriteiten uitgeleverd. Nadat zij gedurende vier dagen waren vastgezet, werden zij naar Kampong POHARA gebracht, alwaar de Japanner SATO (burger van de HANAKIKAN) hem onthoofdde.

Levende getuigen ontbreken voorzover ik weet.

Op 29 December 1944 werd een Amerikaansche dame (naam onbekend) door een onderzeeer op het eiland WAWONI aan land gezet. De BOEGINEES BADEANG (uit Wawoni) nam haar gevangen en leverde haar aan de Japanners uit. Zij werkt vijf dagen als naaister voor de Jap., waarna men haar naar Kampong MANDONG bracht. Hier werd zij aan een nangaboom vastgebonden en vervolgens door de Japanner FUDJIMOTO onthoofd. Over dit geval kan den Amb. soldaat K.N.I.L. Latupeirissa, die ik het laatst in Makasser gezien heb, ook het een en ander mededeelen.

Op 14 Januari 1945 werd op het eiland WAWONI wederom een Amerikaansch vliegtuig neergeschoten. Twee personen werden gevangen genomen en aan de Jap. uitgeleverd. Na drie dagen in de gevangenis gezeten te hebben, werden zij door den Japanner SINO onthoofd. Meerder gegevens omtrent voorval en personen kan ik niet verstrekken.

Op 19 Februari 1945 kwam nabij LASOLO (Kendari) een Amerikaansch vliegtuig neer. Een persoon werd gevangen genomen en 2 dagen in de gevangenis gestopt. Hierna volgde zijn doodschieting door den Japanner NENOEMIA (heistjo).

Meerdere bijzonderheden weet ik niet.

Twee personen werden gevangen genomen toen op 29 April 1945 in de buurt van KASEIAMPE een Amerikaansch vliegtuig neerstortte. Zij werden naar Kendari getransporteerd, waar zij drie uren aan een onderzoek werden onderworpen. Vervolgens werden zij per pantserwagen naar Kampong RAMBOERAMBOE gereden, waar de Japanner OEKOEI hun het hoofd afsloeg.

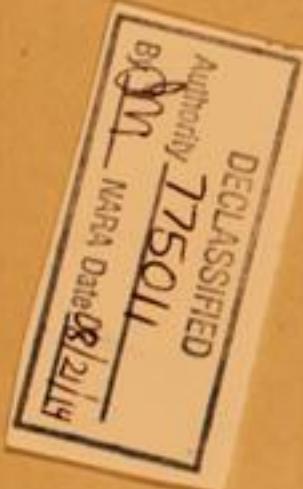

Hetzelfde overkwam de drie Amerikanen, die nabij LABOEANG BOEADJA (Kendari) waren neergekomen. Zij werden nl. naar Kampong SALO (Kendari) gebracht en daar op 30 Mei 1945 door den Japanner NAKAMURA onthoofd.

3. U verklaart, dat op 24 Januari 1942 zeshendertig man werden gevangen genomen, terwijl zeventien werden geexecuteerd. Wat is er met de resterenden 19 dan gebeurd?

3. Dit kan ik U niet mededeelen. Bovenstaande feiten heb ik U met nauwkeurigheid kunnen rapporteren, omdat ik tot de ploeg voor het dichtgooien der graven behoorde en dus het een en ander van nabij heb kunnen gade slaan. Wat er met anderen geschiedde, kon ik door mijn positie van gevange tevens gravendichter niet weten.

4. Hebt gij aan Uw verklaringen nog het een of ander toe te voegen?

4. Neen, dit was alles wat ik U kon vertellen. Ik zou er wel nog even Uw aandacht op willen vestigen, dat ik niet weet of de namen der Japanners juist zijn gespeld. Ik ben op de

III.

klank afgegaan.

5. Ik zou nog even van U willen vernemen hoe het mogelijk is, dat gij na zoo'n langen tijd de dagen, uren en namen nog precies weet?
5. Ik heb van het een en ander een korte aantekening gemaakt in mijn kladboekje.

Na voorhouding en voorlezing in de Maleische taal verklaart getuige bij zijnn verklaringen te willen volharden, hier niets aan toegevoegd of gewijzigd te willen zien, waarna dit door mij op ambts-eed opgemaakt proces-verbaal met getuige geteekend wordt ter plaatse en op de datum in de aanhef dezes vermeld.

residence of the Assistant Resident and the  
Aspirant-Controller at Kendari, Celebes, on the

Q. - What is your full name and address?

A. John Tjipto - I live at Baec Baec on the  
island of Bontor.

Q. - Were you in Kendari during the month  
of October and November of 1944?

A. - Yes, I was. I came from Baec Baec to  
Kendari on Oct 5<sup>th</sup> or 6<sup>th</sup> 1944.

Q. - What type of work were you doing?

A. - I was working for the Tokkai Tei.

Q. - Did you see any American prisoners of  
War at DR about this time, in Kendari?

A. - Yes.

one Kannang, who was a teacher or goon. On Oct. 8<sup>th</sup> he told me that while I was out a Jap soldier from the Tokkai Tai was there looking for me - so I went to Tokkai Tai headquarters.

There I was asked if I could speak English - I told the officer "a little." I was then told to wait, that some captured American P.B.I. flyers who had been brought down near Salatangka were <sup>being</sup> brought by motor-boat to Kendari, and that I was to act as interpreter.

At about 5 P.M. of that day the boat arrived and the Americans were brought to Tokkai Tai Headquarters in a truck.

Capt. Taneguchi was standing outside the headquarters with other Japanese officers when the prisoners arrived.

Q. Did Taneguchi personally speak to any of the prisoners when they arrived?

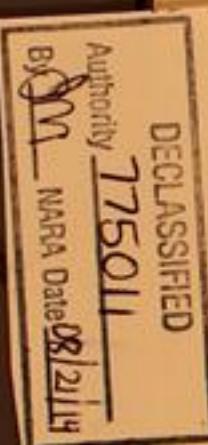

A. He did not.

Q. Did he direct you to ask any questions?

A. He did not. Taneguchi never spoke to the Americans at all, and when they were brought inside for questioning he remained outside.

Q. Can you describe these prisoners as best you can?

A. I have written a description of them on

a separate sheet which I would like to have attached to this statement.

(To be attached and marked Exhibit A.)

Q. - What happened after the Americans were taken into Headquarters?

A. Under the direction of Abe, I questioned each one of the Americans individually and separately - as to their name, age, rank, station from which they came etc. The questioning lasted about 1½ hours.

When the last man was questioned, Abe went out, and I followed shortly thereafter.

I took notes during the questioning and I gave these notes to Nakamura.

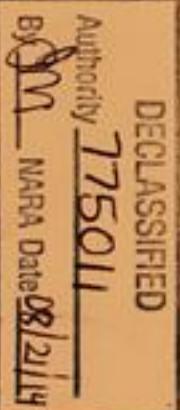

In the group of Americans, I think there was one officer - a Lt. Goodwin - fair eyes, dark straight hair, tall and thin.

One was injured - he had a cut across the bridge of his nose - it had already been bandaged when I saw him. One of the men was John Sommer.

One of the Americans told me that they were Navy flyers, that they were in a PB4Y plane - that it had crashed in the sea about 1 A.M. - off the Island of Salabangka - that two of the eleven members of the crew had died in the crash.

One of the men came from New Jersey.

Ltr. Headquarters, American Graves Registration Service, India-Burma Zone, APO 465, c/o Postmaster, New York, N.Y. Calcutta, India. File 314.6 Dated: 30 November 1946, Subject: Reports of Reinterment (Continued).

A copy of the Australian Case No. 7 received along with the above letter is attached as inclosure #7, wherein the following details are given:

"On or about 1 October 1944, a PBY plane was damaged by anti-aircraft fire and force landed along the coast of Salabunk, Celebes, that nine (9) survivors from this plane came ashore in a rubber dinghy, were captured and taken to Kendari by the Japanese and beheaded on or about 12 December 1945 by order of Capt. Tanaguchi. Five of these individuals were beheaded at Kendari (Lt. Schilling being one of them); and one at Mondonga and the remaining three at the Kendari Air Field about 10 miles from Kendari. The graves of the latter three have not been located, which, according to the Japanese version, were blown up in the bombing of the Kendari Airfield and it was doubtful if these remains could be recovered".

3. A thorough search by our Search and Recovery Teams both in Kendari and Mondonga resulted in the discovery of the remains of only six of these nine men. No where in the War Crimes Reports is mention made as to what happened to the other two individuals who were aboard this PBY plane.

4. Comparison of Dental Charts taken at the time of reinterment of these remains at Barrackpore, with the charts furnished this headquarters by the Naval Liaison Unit, was made by the Medical Officer assigned to this headquarters, who positively identified five of them as the personnel listed in paragraph 1 above. The Medical Officer is of the opinion that there is some doubt about the positive identify of the body buried as Unknown X-203 through circumstantial evidence and interrogation by Lt. Mitane of the War Crimes (see paragraph 3 of the remarks section of inclosure #7) definitely establishes the identity of this unknown as SCHILLING. It is requested that further scrutiny of the charts be made by your office and the results thereof be furnished this headquarters.

5. Acknowledgement of receipt of the reports of reinterment is requested.

WAR CRIMES BRANCH

26 February 1946

SUBJECT: Australian Case No. 7, "Beheading of 9 American Naval Aviators At KENDARI, CELEBES, Located on the Eastern coast of Southern Celebes".

INFORMANT Flight Lieutenant M.T.O'SHEA.

The following information was given by Flight Lieutenant M.T.O'SHEA, now assigned to the 11th Group Headquarters, Morotai, on 26 Feb 1946.

DATE OF ATROCITY: 10 or 12 December 1944

PLACE : KENDARI Prison Barracks: the victims were buried there.

VICTIMS : 9 members of the US Naval PBY crew two of whom were identified as D.E.SCHILLING of Clinton, New York, Serial Number 2388974, and J.J.SOMMER, of 27 Concord Avenue, Maplewood, New Jersey.

KNOWN PERPETUATORS: Capt. TANAGUCHI (first name unknown to informant) Japanese Naval Commander of the Japanese TOKEI TAI (Japanese Military Police) at KENDARI.

Admiral OSUGI (first name can be obtained by informant), Commander of the Japanese Naval Base at Makassar at the time of the atrocity.

The executioners were as follows :

Sub Lt. CHUMA  
W/O TANAKA  
Lt. MITANE (Reported as having killed Schilling)

Sub. Lt. YAMAMOTO  
Sub. Lt. OGAWA

(first names of above executioners will be obtained by informant)

These executioners are now in custody at the British War Criminals Compound at Makassar, located at MANDAI, 9 miles from Makassar. Sub.Lt.CHUMA went to Borneo before the surrender and his present whereabouts are unknown.

EYE WITNESS:

Informant does not have the names of all eye-witnesses, but states that there were about four or five eye-witnesses to this beheading, which eye-witnesses are Japanese now in custody. The eye-witnesses which gave informant that he believes to be most relevant information is a Japanese civilian by the name of SATO who was present at the beheading of five of the fliers and has given a complete signed statement on the killing and names of the perpetrators. No statement has been taken from any of the other eye-witnesses or perpetrators to date.

REMARKS:

These victims were on a PBY which was engaged in a mission in KENDARI Harbour on or about 1 October 1944. It was damaged by anti-aircraft fire and force-landed on the sea along the coast near SALABUNK, CELEBES, about 30 miles from KENDARI. It was not known how many were aboard this PBY at that time, but survivors came ashore INA RUBBER DINGHY on or about 1 October 1944 and were captured by members of the Japanese Army or Navy, unit unknown, and were taken to KENDARI and placed in custody by the TOKEI TAI there. On 10 or 12 December 1946 these 9 American Aviators were beheaded by order of Capt TANAGUCHI who is now in custody by the British War Criminals Compound at Makassar.

Informant interviewed Capt TANAGUCHI on or about 29 December 1945 at which time he admitted that he had ordered the execution of these men, but stated that he was acting on orders from Admiral OSUGI.

Each of the five executioners named above is alleged to have executed at least one aviator each and Lt. MITANE is reported by one Japanese now in custody to have executed Lt. SCHILLING (name of this Japanese informant can obtain).

Informant explains that he had made a partial official investigation of this atrocity in connection with his duties as casual officer and war crimes investigator for the RAAF. He further states that the executioners mentioned above were responsible for the beheading of the five of the nine aviators. These five aviators were executed by members of the KENDARI Guard Unit of the Japanese TOKEI TAI. One of these groups of five executed is believed to have been SCHILLING.

Bodies of these groups of five US Aviators have not been disinterred but informant knows the definite location of their graves.

One of the remaining four was executed at a place called MANDONGA and buried there and the location of that grave is known; the other three were executed at the KENDARI Airfield, about 10 miles from KENDARI, and buried there. The graves of the latter three have not been located yet. The Japanese information had it that they were blown up in the bombing of the airfield and it is doubtful whether or not these bodies can be recovered.

Perpetrators of the execution of the aviators at MANDONGA were members of the Torpedo Assembly Unit of the Japanese Imperial Navy which had its headquarters at the time of this atrocity at KENDARI. Names of these perpetrators are unknown. The perpetrators of the beheading of the three aviators at the KENDARI airfield were members of the Japanese Air Corps. They executed two of these three remaining aviators and the remaining one was executed by the airfield defense unit, the anti-aircraft unit. Names of the perpetrators of this group of three aviators are unknown but can be found according to informant.

One of the victims had a watch and this is reported to be in the possession of Capt TANAGUCHI who was questioned regarding this but denied possession. Native witnesses probably will have to be interviewed in regards to this case although they have given basic information to informant regarding capture and detention of these aviators. So far as known there are no witnesses other than Japanese to the execution. X

Between 20 or 30 members of the Japanese TOKEI TAI stationed at KENDARI at the time of this atrocity are being detained in the British War Crimes Compound at Makassar. This group of detained prisoners includes all known members of the TOKEI TAI at KENDARI at the time of the atrocity. It is a possibility that other Japanese now in custody may be implicated in this atrocity. Informant states that to date he has no leads as to the names of the perpetrators or commanders of the units which killed the aviators at MANDONGA and three aviators at KENDARI airfield.

Informant has names of natives witnesses and can furnish them to our investigators.

Informant, Flight Lieutenant M.T. O'SHEA, states that he expects to be assigned to a beat which will patrol the area around the eastern islands of Netherlands Indies for two or three months and will be willing to cooperate and work with out investigators in investigating this case if arrangements are made for his attachment to these duties.

Celebes operations continued. Page 6.

Unidentified U.S. Airman. Murdered by Japs late Nov 44. Found in a mud bog behing barracks, Kendari with two unidentified Indonesians. Natives states one American and these two Indonesians were killed late one afternoon in Nov 44. No clothing or other identification found on remains. Beheaded.

Unidentified Airman. Beheaded in Small Kendari Cemetery, late in 1943. Natives stated that "late in 1943 a man was brought in from Pomala, believed he was a Captain, was tall, big boned, had red hair." This man was used on general fatigue duty around the barracks area for several weeks before he was taken to the cemetery, made to dig his own grave, and beheaded late one afternoon. All information we could obtain was that this man came from a B-25, number unknown, shot down over Pomala in 1943. No record our files.

Five (5) unidentified Airmen. Killed in crashed of their B-25 early in 1943. Number of plane unknown. It is believed that the man mentioned above is the Captain from this group, and that he was actually taken to Kendari from Pomala early in 1943 and not late 1943, as he was kept there for a long time before he was executed. These 5 bodies recovered from POW Cemetery, Pomala. Plane crashed into water, and the one man was the only survivor.

These 9 Navy men were picked up from the sea by Japs early Feb 42, in a group of approximately 42 people, off the coast of Tjilatjap, Java. They were all brought to Kendari and executed day after arrival (beheaded.) U.S. Navy issue clothing found on each of these 9 Navy men, and dog tags were among the remains of six. This mass grave was accidentally discovered while we were searching for the graves of the three Navy pilots executed at the Kendari airport.

Brief statement of

The Japanese occupation - time at Kendari.

On the 24th of October 1946 appeared before me,  
BISECHOP. CODY 2nd Lt. Infantry, the postmaster of Kendari.  
GERUNGAN J.M. born at Kampong (village) Lalampai,  
Tondano, Menado, on the 11th of August 1913, who made the  
following statement.

I. On the 24th of January 1942 at about 8.00 o'clock  
in the morning a squad of Japanese landed at Kendari under the  
command of Capt. YOKOYAMA (Navy) accompanied by 1st Lt.  
YAMAGOETJI (Navy) and YAMASAKI (Navy) (died at Kendari).

Under his command the following persons have been  
killed here :

- |                          |  |

and other soldiers, name still unknown.

In March 1942 about 30 men of the merchant Navy  
(Europeans, Chinese and Javanese) were sent here and beheaded  
at Kendari II (Airfield). Further informations about this may  
be secured from Reverend Van der KLIFT, Leersum, Netherlands and  
Captain Antonio's wife (RNIA), Mardikaja-road, Makassar.

To Pomalae about 65 technical men were sent to  
work in the Nickel factory. Afterwards in about May 1942 they were  
sent to Kendari airdrome and beheaded. The only survivor of this  
"party" is a certain Mr. DE ROOS, who worked at the radio-station.  
This man was saved by an Allied Jap spy, YAMAGOETJI called, Sgt.  
Maj. Navy, who ~~xxx~~ also worked at that radiostation. This Jap  
was picked up by an Allied submarine between Kolaka and Bandjoe  
in December 1944.

In May 1942 Capt. YOKOYAMA compelled about 15 girls  
to live in a house of prostitution.

The Jap interpreters IKEDA and KOHAGURA were in  
charge on this too. The girls' age varied between 14 till 16 years.  
In charge of these girls was Sgt. MORISTA and in the beginning  
of 1943 changed by Sgt. Maj. M. TAKIMOTO (Navy) at the end of 1944  
assisted by HANABATEU (civilian). TAKIMOTO was like a beast  
when a girl refused a Jap soldier.

The girls started receiving at 13.00 hours until 17.00 hours for OR's and NCO's and from 19.00 hours until next morning for Officers and civilians. Every Jap was replaced every half an hour.

In August 1943 an American plane was shot down above Pomalaa and crashed on the island of Kabaena. Five survivors were sent to Kendari, questioned and sent back to Pomalaa. The driver of the car was MASSAKI, Sgt. Navy.

In Sept. 1943 again an US plane was shot down above Pomalaa and the only survivor an American officer, name unknown, was sent to Kendari and was killed here (beheaded).

Capt. YOKOYAMA started taking prisoners all the former soldiers RNIA in Sept. 1943.

II. YOKOYAMA was relieved at the end of 1943, after his promotion, by Capt. NAKAMURA. He stayed here until July or August 1943.

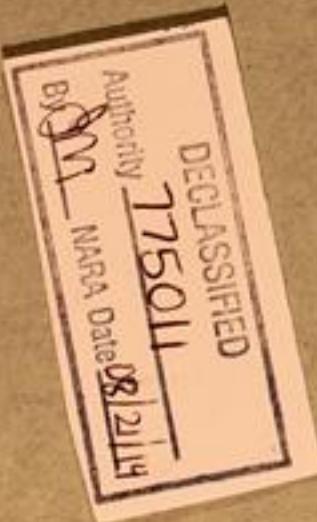

III. NAKAMURA, after promotion has been relieved by MATJIDA, Capt. Navy. He started executing the former soldiers of RNIA and several civilians. In the environs of Salubangka an US plane crashed in August 1944. The nine survivors were questioned here and beheaded. A certain JOHN TJICE (collaborator) worked as an interpreter with the Toke-Tai. This man may give more information.

IV. TAKEOETJI Sept. 1944 - Capitulation.

In Konda a plane has been shot down. The survivor was a lady. The Jap has made her disappeared. An American Sgt. Major of another plane hid in the forest. This man lateron was picked up. After the Jap capitulation a certain ABDOEL GAFFUR and two men, Nefis spies, have been executed at Kendari airdrome.
