TOKYO, Jan. 15.-(Official Broadcast Recorded by AP)-The prisoners intelligence bureau announced 442 persons captured at the United States island of Guam, including Captain George J. Mc-Millin, the governor, arrived at Shikoku today and were interned at barracks in the city of Zentsují.

Domei said the prisoners in-cluded 142 marines, eight of them officers and 41 non-commissioned officers; 159 navy men, four of them officers; five nurses

and a number of civilians. The news agency said 10 United States navy petty officers had surrendered to Japanese

forces in the Gilbert islands and were taken to an internment camp on Shikoku, one of the four principal Japanese islands. The Japanese broadcast did not indicate what United States navy indicate what United States navy men might have been doing in the Gilbert islands, a British mandate midway between Ha-waii and Australia. There have been no specific accounts of fighting or Japanese landings in the islands, but the British co-lonial office said several weeks ago that Japanese forces were belleved operating in that area and expressed fears for the safety of British nationals on the islands. islands.

## **475** Americans **On Guam Held**

WASHINGTON, Feb. 14.(AP)-Senator Thomas of Idaho said today the state department advised him that 475 Americans captured on the Pacific island of Guam are now prisoners in Japan.

A message received by the department from the International Red Cross at Berne, Switzerland, gave no names, he said, but stated that 134 non-combatants on Guam are now being held at Kobe, and that 341 prisoners of war captured on the island, eight of whom were wounded, are be-ing held at Zentuji. Thomas explained he had sought the information because

several hundred men and boys from Southern Idaho were em-ployed at the outbreak of the war on the islands of Wake, Guam and Midway. . .

# Guam Lost, Navy Fears; No Contact

**Small Garrison Believed** Subdued by Invaders, but Wake, Midway Stand Fast

WASHINGTON Dec. 13.-(U.P.)-The "probable" loss of Guam to the Japanese invaders was announced by the navy today, while the war department interpreted Nipponese strategy in the Philip-pines as aimed at obtaining im-provised air bases outside the Manila area.

The Guam situation was reviewed in navy communique No. 5, which said the navy is "un-able to communicate with Guain either by cable or radio" and that its small garrison of 400 navy man and 155 marines may have been subdued by the invaders.

The navy communique said that although the "capture of the island is probable," the United States garrisons at Wake and Midway continue to resist." Wake, Midway and Guam con-stitute three links in an island chain stretching between the Philippines and Hawaii.

#### Japs Admit Damage **To Naval Forces at Wake**

SAN FRANCISCO, Dec. 13-SAN FRANCISCO, Dec. 13-(U.P.)-Japanese Imperial navy headquarters admitted damage to its naval forces attacking Wake island in a Tokyo radio broadcast picked up tonight by a United Press listening post.

After making sweeping claims to a series of victories over British and American fleet units in South Pacific fighting, the Japanese government broadcaster acknowledged that the United States garrison defending tiny Wake island inflicted "some damage" on Nipponese vessels. (The United States navy previ-

ously announced marines at Wake sank a Japanese cruiser and destroyer by aerial action.

REVISED MAILING INSTRUCTIONS - JAPAN

The Prisoner of War Information Bureau, Office of The Provost Marshal General, is charged with the responsibility of furnishing next of kin and other interested persons information relative to all Americans held as civilian internees and prisoners of war. The following instructions will govern the dispatch of letters and parcels to civilian internees in Japanese custody. Do not send letters to the Prisoner of War Information Bureau for forwarding.

**IETTER MAIL** - Restrictions recently imposed by the Japanese Government require that letters to civilian internees be typewritten or printed in block letters and not exceeding twenty-four words in length. The name and address of the internee and the name of the sender will not be counted in determining the number of words in the letter. There is no limitation, however, to the number of letters which may be sent by relatives and friends; the contents will be limited to personal and family affairs. Information of a political or military nature will not be included. The use of thin paper is encouraged to save weight and space. Unmounted photographs and snapshots, of a size to fit an ordinary envelope, may be included provided they do not reveal information of military or political significance. There is now available at all post offices in the United States, where required, air-mail letter sheets, W.D., P.M.G. Form No. 111, for use in corresponding with American civilian internees and prisoners of war. This letter sheet requires a six-cent air-mail stamp. This sheet will be flown by the Army Transport Command to Teheran, Iran; and thence by surface routes through Russia to Manchukuo where it is delivered to the Japanese authorities. Use of this form greatly facilitates censorship both in the United States and in enemy territory by providing a standard size unsealed letter. It is believed the use of this form will facilitate delivery of mail to civilian internees in Japanese custody and the Prisoner of War Information Bureau urges that it be used. The twenty-four word limitation applies to this form the same as it does to ordinary mail. When W.D., P.M.G. Form No. 111 is used for corresponding, substitute the words "United States Civilian Internee" for "United States Prisoner of War", and "Civilian Internee Mail" for "Prisoner of War Mail".

ADDRESSES - When addressing civilian internee mail, the complete name (including middle initial or middle name), civilian internee number (when known), and place of internment (when known) shall be used. There are three types of addresses to be used:

1. When the <u>camp address</u> is <u>unknown</u> but the <u>internee</u> is definitely <u>known to</u> <u>be in Japan proper</u>, the face of the envelope should be prepared as follows:

#### Civilian Internee Mail

Postage Free

(Insert Complete Name here), United States Civilian Internee, (# if known), KEIHOKYOKU NAIMUSHO TOKYO, Via New York, New York.

KEIHOKYOKU NAIMUSHO - English translation: "Police Affairs Bureau, Home Affairs." Japanese words to be used in such cases. 2. When <u>camp address</u> is <u>unknown</u> but <u>internee</u> is <u>definitely known to be in</u> <u>Japanese Overseas Territories</u> (as Chosen, Taiwan, Karafuto, South Sea Islands, Kwantung leased territories, Philippine Islands, etc.):

Civilian Internee Mail

Postage Free

(Insert Complete Name here) United States Civilian Internee (# if known), HURYOJOHOKYOKU, Via New York, New York.

HURYOJOHOKYOKU - English translantion: "Prisoner of War Information Bureau". Japanese word to be used in such cases.

3. When place of internment is known to the writer:

Civilian Internee Mail

Postage Free

(Insert Complete Name here), United States Civilian Internee (# if known), Santo Tomas Internment Camp, (or other camp), Philippine Islands, (or other location), Via New York, New York.

Information received from Japan indicates that mail is being forwarded in cases of transfers of civilian internees. The importance of correctly addressing civilian internee mail cannot be too strongly emphasized.

This circular supersedes all previous mailing instructions, and is based upon information recently received from the Japanese Government through the International Red Cross.

<u>PARCELS</u> - Parcels cannot be sent to civilian internment camps in the Orient at this time due to restrictions imposed by the Japanese Government. When and if such restrictions are lifted and it is possible to send parcels, a parcel label will be issued to the next of kin without application permitting the shipment of a civilian internee parcel.

Any change of <u>PERMANENT</u> address by the next of kin should be furnished the Prisoner of War Information Bureau <u>giving full name of the civilian internee</u> concerned.

#### THANKSGIVING

"SLIM" HUSTON RETURNS

At this time of Thanksgiving, we here in Honolulu have a special reason to be thankful - the safe return from a Japanese prison camp of our old friend and fellow Standard Oiler, Ronald N. ("Slim") Huston.

"Slim", who was Sub-Station Agent on Guam, was captured on December 8, 1941 (December 7 Hawaiian time) when Guam was invaded by the Japanese. After spending nearly four years in prison camps in Formosa and Kobe, 18 months of which time was spent in hospital suffering from blood poisoning, as a result of an infected shrapnel wound in his foot sustained during the pre-invasion bombing of Guam, "Slim" arrived at Pearl Harbor on October 10, 1945, aboard the U.S.S. Joseph Dickman. None of the 2,000 liberated prisoners of war were allowed ashore, but a number of "Slim's" friends were permitted to visit him on board, and they report that although he naturally showed signs of his ordeal, particularly in the matter of loss of weight (he went from his normal 220 lbs. to as low as 140 lbs. at one time), he is nevertheless in fairly good shape physically and very alert mentally, and after a few months rest and an opportunity to enjoy some of the comforts of life, we all hope that he will be his old self again.

All Standard Oilers in the Honolulu District have waited anxiously for news of "Slim" during his long imprisonment, and have rejoiced from time to time over the little scraps of news which have come to us from Radio Tokyo and other sources, and it is with relief and the deepest of heartfelt thankfulness that we say:

WELCOME BACK, "SLIM", AND ALOHA
