Instruction given by Colonel Y. Naguchi,
Superintendent of The Chosen War prisoners' Camp.
September 1942.

(It is requested that you should preserve these papers after having read through.)

I am Colonel Y. Naguchi, Superintendent of the Chosen War prisoners' Camp. Receiving you here, I should like to give necessary instruction to you all.

I hope you will consider how this Greater East Asia War happened. Nippon desired for peaceful settlement arising from the conciliatory spirit, rejected by America and Britain in order to attain their ambitious demand to East Asia. Finally they overwhelmed Nippon, the important defender of Asia, to the extent that they dared to resort to violence of economic disruption.

Promoting Chinese internal confusion and increasing military preparation on all sides of Nippon Empire to challenge us, thus the very existence of our nation being in danger, we stood up resolutely with unity of will, strong as iron, under the name of Tenno (Emperor) for the emancipation of the nations and elimination of evil sources in East Asia.

The rise or fall of our Empire that has the glorious history and the progress or decline depend upon the present War. Firm and unshakable is our national resolve, that we should crush our enemy the U. S. A.

(2)

and the Britain.

Heaven is always on the side of Justice. Within ten days after the War Declaration, our Navy and naval Air Forces annihilated both the American Pacific fleet and the British Far Eastern Fleet; within a few months, American and British long established Army, Navy, and Air Bases were crushed by our Army and Army Air Forces; and now, tide turning in our favour, all parts of regions linked with Burma, Java, and Wake Island have already been occupied by us, and the inhabitants there are rejoicing in cooperation with us for the construction of New Asia. And now these above facts have induced the Indian rebellion and Australia come to a crisis of capture. Afterward our belligerents sent their air crafts and fleets for the rescue, but every time they were sunk to the bottom or destroyed and repulsed, thus the total damages come up to 2001 vessels and 4500 Aircrafts.

I think these war results do not signify the inferior power of our enemy, but rather owe to our absolute indomitable power. - That is to say the power protected by Kami (Heaven). Wherever Nippon Army and Navy advance, Tenryu Shinjo (Special providencial help) always follows; you should recognize the fact and consider the reasons.

Nippon Army and Navy are under the Imperial Command of Tenno (Emperor) who is the personification of Kami (God), so that the Imperial Troops are to be called the Troops of God. Now you have become

war prisoners because of struggling against Kami-no-jun (God's Army), and now you are convinced of fearfulness to the marrow and became aware of unsavoury results. What do you think of this?

However you have lost fighting strength now, you once fought fiercely against us. Judging from this fact some of you will hold hostile feeling against us in your hearts that can never be permission. Accordingly, we will punish you if you act against our regulations, for instance the non-fulfilment of regulations, disobedience, resistance and escape (even an attempt to do so) are understood as manifestation of hostility.

I kindly requested you that you must be cautious not spoiling yourselves by punishment.

But on the other hand, with Nippon warrior's forgiveness I express respect to your faithfulness to your country and fulfilment of your duty, and feel pitiful for your capitulation after exhaustion.

You should reflect on yourselves. According to the extent of your malice feeling we also put certain limit to your freedom you enjoy or severity and leniency on your treatment.

Parole is of use as a proof of wiping away your hostility. I am regretful to say those refused to swear will be treated as persons of enemy character, will be placed under restraint regarding maintenance of honour, protection of your persons, and must

(4)

endure pain in compensation of hostility.

The details of concrete outline of style of daily life are defined in "the regulation regarding to daily life"; you should put them into practice strictly after reading over them.

Prejudice against labour and grumbling over food, clothing and housing are strictly prohibited, because the change in your daily life and custom are inevitable under present war situation.

Closing my instruction, I advise you all to find interest and anxiety in your forthcoming daily life by acting according the Imperial military discipline.
